Applicants with educational credentials from foreign colleges or universities must have their foreign education evaluation **if** they wish to have their hours of college education considered in qualifying for a CPA certificate. Please be advised that your evaluation **MUST** indicate which courses are **upper division or graduate level courses**.

You must provide satisfactory evidence that the degree or college credits you received from a foreign university, college, or other four-year educational institution are equivalent to a degree or credits one would receive from an accredited university, college, or other four-year educational institution in the United States, by having your academic credentials evaluated by the following Board-approved evaluation service:

You may be eligible for an exemption from the education requirements if the following conditions are met:

- You hold, and have continued to hold, a valid comparable CPA certificate, registration, or license from another state for at least 10 years preceding the date of this application for a Hawaii CPA license; **and**
- You have been in the active practice of public accountancy for at least 5 years preceding the date of this application for a Hawaii CPA license.

Submit a completed Form CPA-05, *Verification of License/Exam Scores - CPA*, together with a signed statement from the Board of Accountancy of your state of licensure verifying that you meet the above-cited conditions.

NOTE: If you passed the Uniform CPA Examination in May 1998 or later as a Hawaii candidate, and you are applying for CPA licensure **within 5 years** of passing the exam, you need not submit your educational transcripts with your license application. The transcripts that you submitted to CPA Examination Services in order to qualify to take the exam should have been forwarded to the Board once you passed the examination.

EXPERIENCE

Submit a signed *Certification of Public Accountancy Experience* form (CPA-14) from your employer or supervisor who holds or had held a CPA license in Hawaii or in another state or jurisdiction during the time of your employment. This form should verify the duration and scope of your experience. On the form, your employer or supervisor should provide specific starting and ending dates for your employment, the total number of **chargeable** audit hours worked (if you are choosing to fulfill the experience requirement for licensure as a CPA with 1,500 **chargeable** hours in the performance of audits), verifying your duties and responsibilities in one of the following:

1. 1,500 **chargeable** hours in the performance of audits involving generally accepted accounting principles and auditing standards earned while employed on a full-time basis (35 or more hours per week) in public accounting practice; **OR**
2. Two (2) years of full-time professional work experience (35 or more hours per week) in public accounting practice, private industry, government, or education.

The form should also include the CPA license number of the certifying employer or supervisor who is signing the form, and the state or jurisdiction where your employer or supervisor is licensed as a CPA or was licensed as a CPA during the time that you were under his/her supervision.

(CONTINUED ON PAGE 4)

IMPORTANT NOTICE: This experience requirement is **in addition** to the 30-month experience option that satisfies the 30 semester hours of additional study requirement for applicants who passed the Uniform CPA Exam before December 31, 2000, or held conditional credits before December 31, 2000, and subsequently passed the exam before the conditional credits expired.

NOTE: If your experience was gained in the private, government, or academic sectors, and not at a CPA firm, it is crucial that the description of your duties and responsibilities be as comprehensive and inclusive as possible, so that the Board has the information required for it to determine whether your experience is equivalent to experience gained at a CPA firm.
