

## **NATUROPATHIC FORMULARY** **(Effective February 7, 2014)**

### Introduction

Pursuant to Act 22 (2009), the Board of Naturopathic Medicine (“**Board**”) hereby establishes this naturopathic formulary that specifies the vitamins, minerals, dietary supplements, botanical medicines, homeopathic medicines, hormones, and legend drugs consistent with naturopathic medical practice that naturopathic physicians can prescribe, administer, or dispense; provided that naturopathic physicians **cannot** prescribe, administer, or dispense any of these items in the injectable form or by injection unless the naturopathic physician is specifically authorized by the Board. **Controlled substances are excluded from this formulary.**

**Effective February 14, 2011**, only naturopathic physicians who possess a “parenteral therapy” special privilege issued by the Board may prescribe, administer, or dispense any of these items in the injectable form or by injection. To find out if a naturopathic physician is licensed and possesses a “parenteral therapy” special privilege issued by the Board, please visit <http://pvl.hawaii.gov/pvlsearch/app> or you may call our Licensing Branch at (808) 586-3000.

If you have any other questions, please contact the Board’s office at (808) 586-2704 or visit the Board’s website at <http://hawaii.gov/dcca/pvl/boards/naturopathy/>.

### List of Formulary Items

1. **ALL non-prescription and prescription** vitamins, minerals, nutritional/dietary supplements, botanical medicines, homeopathic medicines, and all biological substances including extracts and/or their products and residues.
2. **ALL HORMONES** with the exception of those that are controlled substances (e.g. testosterone).
3. **ANTIBIOTICS**
  - Amebecides
  - Antifungal agents
  - Antihelminthics
  - Antimalarial preparations (includes artemesin, derived from Artemesia annua)
  - Antiprotozoal agents
  - Antituberculosis agents
  - Antiviral agents
  - Bacitracin
  - Cephalosporins and related antibiotics
  - Fluroquinolones

## **NATUROPATHIC FORMULARY**

**(Effective February 7, 2014)**

### 3. **ANTIBIOTICS** (continued)

Macrolides  
Nitrofurantoin  
Metronidazole  
Neomycin  
Nitrofurans  
Penicillins  
Quinolones  
Sulfonamides  
Tetracyclines

### 4. **PAIN CONTROL AGENTS**

Anti-gout agents  
Antimigraine agents  
Antirheumatics  
Cyclobenzaprine  
Naltrexone  
Non-opiate analgesics  
NSAIDS  
Salicylates

### 5. **DERMATOLOGICALS**

Anti-fungals, topical and oral  
Anti-infectives, topical only  
Anti-inflammatory agents  
Anti-psoriatic agents, excluding methotrexate  
Antihistamine preparations, topical and oral  
Antiseborrheic products  
Counterirritants  
Destructive agents  
Dressings and granules  
Drying agents  
Eflornithine HCl  
Enzyme preparations  
Finasteride  
Hemostatics, topical only  
Immunomodulators, topical only  
Irrigating solutions  
Keratolytic agents  
Local anesthetics  
Topical, IM, and SQ Bupivacaine, Lidocaine, and Procaine  
IM and SQ Epinephrine  
Minoxidil

5. **DERMATOLOGICALS** (continued)

Photochemotherapy  
Pigment agents  
Protectants  
Pyrithione zinc  
Retinoids  
Rexinoids  
Scabicides/pediculicides  
Oral and topical steroids

6. **OPHTHALMIC AGENTS**

Antibiotics  
Antivirals  
Mast cell stabilizers  
Ophthalmic antihistamines

7. **OTIC AGENTS**

Antibiotics and combination preparations  
Otic anesthetics  
Otic steroids

8. **RESPIRATORY AGENTS**

Antitussives and combined antitussives  
Bronchodilators  
Expectorants  
Antihistamines  
Leukotriene formation inhibitors  
Leukotriene receptor antagonists  
Nasal steroids

9. **GASTROINTESTINAL AGENTS**

Antidiarrheals  
Anti-emetic/antivertigo agents  
Bile acid sequestrants  
Functional bowel disorder agents  
Cholelitholytic agents  
H. pylori agents  
Proton pump inhibitors  
Sodium phenyl butyrate

10. **CARDIOVASCULAR AGENTS**

Anti-lipemic agents

**NATUROPATHIC FORMULARY**

**(Effective February 7, 2014)**

Page 4 of 5

10. **CARDIOVASCULAR AGENTS** (continued)

Anti-thrombotic/anti-coagulant agents  
Hypotensive agents  
Digoxin  
Pentoxifylline  
Vasodilating agents

11. **RENAL AND GENITOURINARY AGENTS**

Alpha-reductase inhibitors  
Diuretics  
Impotence agents  
Phenylbutyrate  
Uricosuric agents  
Urinary antispasmodics  
Vaginal Preparations

12. **PSYCHOTHERAPEUTIC AGENTS**

Acetylcholinesterase Inhibitors  
Antidepressants  
Smoking cessation agent

13. **ENDOCRINE AND METABOLIC AGENTS**

Anti-diabetic agents  
Anti-thyroid agents  
Bisphosphonates  
Uterine-active agents

14. **DIAGNOSTIC AGENTS**

In vitro Diagnostic Aids  
In vivo Diagnostic Biologicals

15. **VACCINES (all)**

Anti-toxins and antivenins  
Immune globulins

16. **CENTRAL NERVOUS SYSTEM DRUGS**

Anticonvulsants

17. **CHELATING AGENTS (all)**

18. **MEDICAL GAS**
