DECISION AND ORDER NO. 203
(Rate Order)

WHEREAS, the Cable Television Division, Department of Commerce and Consumer Affairs of the State of Hawaii (the "State") became certified to regulate basic cable service rates and associated charges as of May 12, 1994, and has followed regulations prescribed by the Federal Communications Commission (the "FCC"), 47 C.F.R. WHEREAS, by letter dated May 12, 1994, the State notified Jones Spacelink of Hawaii, Inc. (the "Company")¹ that the Company's rates for the basic service tier and associated charges for equipment and installation for its cable system were subject to regulation by the State; and

WHEREAS, the Company gave the State notice that effective as of July 14, 1994, the Company would restructure its rates to comply with revised rate regulation rules adopted by the FCC that became effective on May 15, 1994 (the "Amended Rules"); and

¹By Decision and Order No. 185 issued on April 8, 1996, the State approved the transfer of the cable communications franchise held by the Jones Spacelink of Hawaii, Inc. to Time Warner Entertainment Company, L.P.

WHEREAS, by Decision and Order No. 172 the State established the Company's maximum permitted rates for regulated equipment and installations; and

WHEREAS, in connection with justifying the Company's rate adjustment for regulated equipment and installations, the Company submitted its FCC Form 1205 to the State on August 2, 1995 ("Rate Filing") for year ending May 31, 1994, and in response to the State's request submitted supplemental information on October 11, 1996;² and

WHEREAS, on August 7, 1995, pursuant to 47 C.F.R. section 76.933(a)-(b) and section 16-133-44(b) of the Department's Rules, the State issued a written order to extend the rate review period to consider additional information from the Company and to complete its review of the Company's Rate Filing; and

WHEREAS, pursuant to 47 C.F.R. section 76.933(c) and section 16-133-44(c) of the Department's Rules, the State issued a written order on August 17, 1995, directing the Company to keep an accurate account of all amounts received by reason of the rates in issue and on whose behalf such amounts were paid; and

WHEREAS, the State retained a financial consultant to assist it in the streamlined rate review process; and

WHEREAS, the State prepared a proposed rate order, a copy of which was provided to the Company prior to the issuance of this Rate Order; and

WHEREAS, the State reviewed the Rate Filing, and other evidence and information submitted by the Company;³ and

WHEREAS, the Company has the burden of proving that its proposed adjustment is in conformance with the FCC Rules;⁴ and

WHEREAS, an operator may use the FCC Form 1205 to update its charges for equipment and installation services on an annual basis, and it is the official form used by regulators to

²The Rate Filing submitted for the Company's Honokaa system covers Community Unit Identification number CUID HI0079.

³The Company submitted its written comments on the draft rate order on March 13, 1997.

determine whether an operator's regulated rates for equipment and installations are reasonable under the Amended rules;⁵ and

WHEREAS, in its Rate Filing the Company seeks to justify adjustments to the maximum permitted rates for its regulated equipment and installations from the rates set forth in Decision and Order No. 172;⁶ and

WHEREAS, after reviewing the Company's Rate Filing and supplemental information submitted by the Company, there are no adjustments necessary to the Company's proposed maximum permitted rates for regulated equipment and installations; and

WHEREAS, this Rate Order does not address the Company's FCC Form 1240 filed on October 7, 1996;⁷

NOW, THEREFORE, IT IS HEREBY ORDERED THAT:

1. The Company's proposed maximum permitted rates for regulated equipment and installations are approved, and the Company's maximum permitted rates, exclusive of franchise fees and taxes, for regulated equipment and installations as of June 28, 1995 and continuing up to the effective date of the Company's

⁵FCC instructions state that, if an operator has already unbundled equipment and installation charges at cost, the operator must wait one year from the date the operator unbundled its equipment and installation charges before updating such charges. In connection with its FCC Form 393 filing, the Company stated that it first unbundled its rates as of September 1, 1993.

⁶Adjustments to regulated equipment and installation rates only become effective once approved by the State or once the review period for such approval has lapsed. See 47 C.F.R. section 76.933. In accordance with the FCC Rules, the State extended its review period for the Company's Rate Filing to June 27, 1995. Thus, the Company could not have implemented an increase until June 28, 1995. According to tariffs filed by the Company, the Company did not implement its proposed adjustments as set forth in this Rate Filing.

⁷The reasonableness of the Company's proposed adjustments under said FCC Form 1240, will be reviewed in a subsequent separate review.
