MEDIA ADVISORY

Kalaeloa Partners LP (KPLP) is holding a community outreach meeting (public and webinar format) to inform members of surrounding communities, the public and stakeholders about KPLP's power generation facility in the James Campbell Industrial Park located in Kapolei, and its operations and benefits from providing electricity to Oahu's consumers, plus any updates on its negotiations for a potential 30-year extension with Hawaiian Electric's Request for Proposal (RFP3)

KPLP currently provides electricity to meet about 20% of Oahu's electricity needs and has been in operation since 1991. It is one of the early members of the industrial park, and has been a long-term supporter of community, educational, health, civic and neighborhood organizations in the West Oahu area.

This meeting is a continuing series of community briefings to inform the surrounding communities and the public and provide an opportunity for questions and input from the community, including neighboring business.

Details of the public meeting are as follows:

WHEN: Monday, June 24, 2024

WHERE: 91-111 Kalaeloa Blvd. or via Zoom (webinar format)

TIME: 6:00 p.m.

REGISTRATION: Visit our website www.kalaeloapartners.com
