PSPS Maps

We've identified specific areas on each island that have high wildfire risk and may be subject to PSPS. The areas were developed with information on fire history, wind data, vegetation, evacuation routes and the location of Hawaiian Electric infrastructure.

Below you will find the maps for each island with the PSPS areas highlighted. Lāna'i does not have any initial PSPS areas designated for that island.

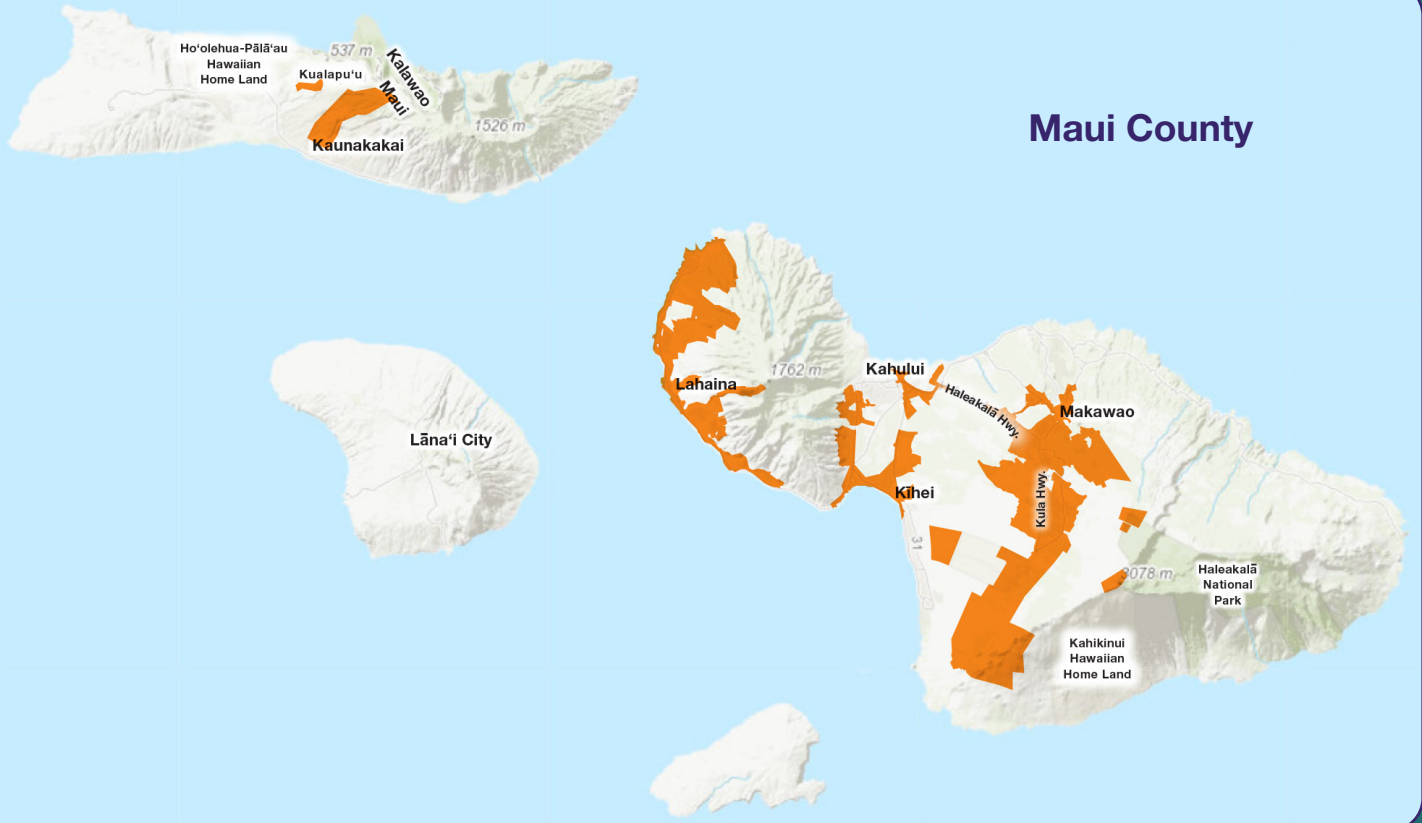

PSPS Estimated Outage Areas

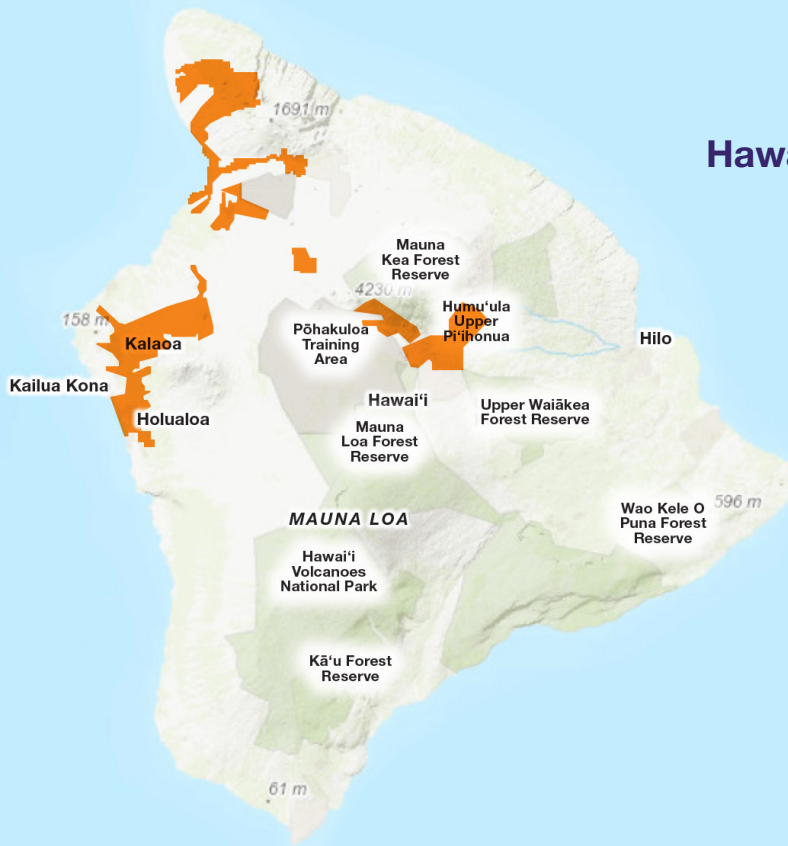

Hawaiian Electric

Maui County

Hawai'i Island

PSPS Estimated Outage Areas
