Distribution:

The Chair called for a motion to add the following to the agenda.

Upon a motion by Mr. Hoban, seconded by Mr. Joslyn, it was voted on and unanimously carried to add the following to the agenda:

**Additions**

7. Executive Officer's Report
  - c. Correspondence
    - 5) Clarification of RN Scope of Practice

Chair's Report:

The Chair congratulated the Vice Chair on being named a fellow in the Institute of Regulatory Excellence of the National Council State Boards of Nursing.

Vice Chair's Report:

The Vice Chair reported that at the Annual Meeting of the National Council State Boards of Nursing (NCSBN) they presented the five year simulation study, and although it was impressive, they thought how does that really apply to Hawaii. After discussing it with the Chair, they thought they should see if they could duplicate the study in Hawaii to see what would work. As a result the Vice Chair applied and was accepted as a fellow in the Regulatory Excellence Institute of the NCSBN and will be going to Charleston, South Carolina in January for the kickoff of the fellowship.

Education Committee  
Report:

The Vice Chair reported on the following:

Hawaii Nursing Programs:

The Committee recommended acceptance of the following Annual Reports:

Annual Reports

1. Hawaii Community College
2. Kapiolani Community College
3. University of Phoenix
4. Chaminade University
5. UH @ Manoa/MEPN
6. Kauai Community College
7. Hawaii Pacific University
8. UH – Hilo
9. UH – Maui College

Applications:

The Committee recommended deferral of the following application for more information

Licensed Practical Nurse

U.S. Graduate

- i. Darr, Jordan

The Committee recommended approval of the following application

Registered Nurse

U.S. Graduate

- i. Brumaire, Mildred

Upon a motion by the Vice Chair, seconded by Mr. Joslyn, it was voted on and unanimously carried to accept the Committees recommendations.

Executive Officer's  
Report:

**Conferences/Seminars/Meetings**

2014 International Nurse Regulator Collaborative Symposium Chicago, Illinois, October 28-30, 2014 – Katharyn Daub

Ms. Daub reported that the meeting was very informative. There were members from several different countries in attendance, such as Canada, and those from Europe as well as many different states. The discussion was very general, covering mainly the topic of the responsibility of being regulators and how to regulate the right way, not too lightly and not to overregulate. They talked about how a lot of organizations will come to a solution before they even figure out the problem. They discussed what the goals are for regulatory bodies and how to define competency, especially for the older nurse.

**2014 Legislature**

Continuing Competency Bill

The EO reported that at the last meeting a draft of the bill was provided to the Board and based on the discussion, this draft contains the recommendations from the Board last month:

The Chair stated on page 3, number (3) it states if the initial license was issued less than twelve months prior to the renewal date, continuing competency requirements do not apply. That should be changed to: if graduation has occurred less than twelve months.... Also, on page 5, line 10 (g), the word "random" is used in reference to the "audit". She would recommend the word "random" be removed so that if the Board determines that a certain individual or organization should be audited they can be. We also need to tell the licensee how long they need to retain their proof of completing continued competency.

The EO recommended that the word "random" be kept in the bill because she had concerns with the Board "targeting" certain individuals or organizations that were not specified in the bill.

The DAG stated that the Board could still conduct a “random” audit even though it is not stated specifically.

The EO suggested the licensees keep their documentation for two renewal periods, which is the last four years.

Ms. Elvenia stated that two renewal periods is reasonable.

The EO stated on page 4, line 19, the word exemption should be changed to extension and also, on page 6 under §457 – Learning activity options., asked if an “hour” is equivalent to a “unit”?

The Chair stated a continuing education “unit” is one hour, and one hour is fifty minutes of instruction because you have to allow ten minutes for a break.

The EO stated on page 7, under §457 – Authorized providers of continuing competence units, the word “competence” should be replaced by education. The EO asked the Board to email any other comments or changes so she will incorporate for another draft for the December meeting.

### **Correspondence**

#### Qualified Professional Case Manager

The Board was provided with a booklet entitled “QPCM Qualified Professional Case Manager”, The First Nationally Recognized Education/Knowledge-based Case Management Certification for RNs for their information. The booklet is sponsored by North American Council of Qualified Case Managers, LLC.

#### FNPs Working in an Acute Care Setting

The Board reviewed an email asking if there is currently any language in the state guidelines that prohibit FNPs (family nurse practitioner) from working in an acute care setting (non-ICU inpatient setting).

The Board determined that based on the following, the nurse practice act does not specifically prohibit a nurse, including an advance nurse practitioner from practicing in a specific setting:

**§457-1.5 Practice of nursing.** (a) Nursing is a scientific process founded on a body of professional knowledge. It is learned profession based on an understanding of the human condition across the lifespan of a client and the relationship of a client with others and within the environment. It is also an art dedicated to caring for others. The practice of nursing means assisting clients in attaining or maintaining optimal health, implementing a strategy of care to accomplish defined goals within the context of a client-centered health care plan, and evaluating responses to nursing care and treatment. Nursing is a dynamic discipline that is continually evolving to include more sophisticated knowledge, technologies, and client care activities. Nursing applies evidence-based practice to promote optimal client outcomes.

(b) The scope of nursing practices established in this chapter and by the rules of the

board shall serve as general guidelines and are not intended to address the appropriateness of the use of specific procedures in any particular work setting or to grant permission to implement specific procedures in any particular work setting.

#### Criminal Background Checks for Licensure as a Nurse

The Board reviewed a correspondence from the National State Council of State Boards of Nursing (NCSBN) asking for the Board's comments concerning a draft standard, "Criminal Background Checks for Licensure as a Nurse".

#### NCSBN Interactive Courses

The Board was provided with correspondence from NCSBN regarding online interactive courses they provide.

#### Clarification of RN Scope of Practice

The Board reviewed an email asking for assistance in clarifying the role of the registered nurse in Hawaii specifically with regard to the administration of opioid range orders.

The Board consensus is the nurse practice act does not specifically address "range orders". The definition of the practice of a registered nurse is as follows:

**§457-2 Definitions.** (a) As used in this chapter unless the content otherwise requires:

"The practice of nursing as a registered nurse" means the performance of professional services commensurate with the educational preparation and demonstrated competency of the individual having specialized knowledge, judgment, and skill based on the principles of the biological, physical, behavioral, and sociological sciences and nursing theory, whereby the individual shall be accountable and responsible to the consumer for the quality of nursing care rendered. The foregoing may include but shall not be limited to observation, assessment, development, implementation, and evaluation of a plan of care, health counseling, supervision and teaching of other personnel, and teaching of individuals, families, and groups in any stage of health or illness; administration, supervision, coordination, delegation, and evaluation of nursing practice; provision of health care to the patient in collaboration with other members of the health care team as autonomous health care professionals providing the nursing component of health care; or use of reasonable judgment in carrying out prescribed medical orders of a licensed dentist, physician, osteopathic physician, or podiatrist licensed in accordance with chapter 448, 453, 460, or 463E; orders of an advanced practice registered nurse licensed in accordance with this chapter; or the orders of a physician assistant licensed pursuant to chapter 453, practicing with physician supervision as required by chapter 453, and acting as the agent of the supervising physician.
