IMPORTANT NOTICE

CALL 811 BEFORE YOU DIG

Aloha!

The Hawaii Public Utilities Commission asks for your kokua to help keep our community safe!

Prevent accidentally striking a utility line by calling "811" before you dig. Whether a deep excavation at a construction site or a shallow excavation with hand tools on a homeowner's property, call 811 to prevent accidentally hitting an electric, telecom, water or gas line that may result in loss of service and could possibly harm people and property.

At least five working days before digging, call 811 to request that utility representatives go to the jobsite and mark the approximate location of buried utilities with paint or flags so you don't unintentionally dig into an underground utility line.

The PUC's Consumer Affairs and Compliance Section oversees the compliance of the One Call law and the administration of Hawaii's One Call Center.

For more information about the Hawaii One Call Center program, go to: <https://digsafelyhawaii.com>.
