Request to
Provide Remote
Supervision of
Psychological
Assistant:

Pursuant to Hawaii Administrative Rules §16-98-4(6), the Board was to review a request by Dr. Michi Wong, Ph.D. and Dr. Ayako Sakuragi, Psy.D.; to approve other arrangements, i.e., remote supervision, in lieu of being in the same location for Psychological Assistant Dr. Jessica Payne, Psy.D.

However, after some discussion based on information provided to EO Fernandez, Chair Sutherland-Choy chose to take the next agenda item out of order so that EO Fernandez could confirm with Dr. Sakuragi that their clinic still required the authorization presented in this agenda item.

EO Fernandez explained that he spoke with Dr. Sakuragi to inquire if Kaiser was moving forward with the request if Dr. Payne intended to be licensed fully within the next week. He stated that Dr. Sakuragi initiated a withdrawal of Kaiser's request, since it would be unnecessary if Dr. Payne was licensed.

Taken out of Order

Review of Advisory
Committee Member
Candidates:

The Board reviewed candidates for the Regulated Industries Complaints Office's ("RICO") Psychology Advisory Committee which will become effective January 1, 2024, upon an approval vote by the Board.

After a brief discussion concerning the purpose of the committee and how it relates to disciplinary investigations by RICO, and on a motion by Dr. Ching, seconded by Dr. Pedro, the Board voted unanimously to approve the candidates for the RICO Psychology Advisory Committee.

Training Standards
And Requirements
For Licensure:

A. Degree Requirements: Coursework, Practicum, Internship
Program and Standards

Dr. Pedro stated that he believes that standards need to be established by the Board as he is getting information from training programs that it would be beneficial to have the standards that they can then train upon; especially in a postdoc experience.

Chair Sutherland-Choy agreed stating this has been something the Board has been attempting to establish through rules or statute change. For example, for those training programs that are not APA accredited, would adhere to APPIC standards.

EO Fernandez reminded the Board that several years ago the Board made an informal interpretation of the statutes and rules saying that it considered the APPIC standards for training program accreditation to meet the requirements for licensure in Hawaii. He added that that Board was currently limited to asking certain things and whether the program adhered to the standards of APPIC, if it is not APA accredited, or not.

Vice Chair Oliveira Cabbab requested clarification why that the Board was limited.

EO Fernandez explained that the rules only allow the Board to identify the supervisor and their credentials, the hours and dates of the internship or postdoc, whether its APA or not, and brief summary. To ask if the internship, for example, was APPIC would be beyond the Board's authorities, especially if the response from the applicant leads to the Board denying the application.

Vice Chair Oliveira Cabbab argued that the Board has a responsibility to confirm if the training occurred in "a Health Service Psychology training program".

EO Fernandez stated that this is made difficult by the fact that "health service psychology" is not defined in the statutes and rules, making a determination by the Board based on APPIC standards questionable. He asked where the term came from?

Vice Chair Oliveira Cabbab explained that the difference between "health service psychology" and "clinical psychology" is almost semantical.

Dr. Pedro agreed.

Dr. Ching noted that “health service psychology” was established during a time when some in the health fields were moving towards integrated healthcare.

Members agreed.

DAG Kim added that the Board’s authorities are not clear about asking further information on training programs without a definition. He added that this could lead to determinations by the Board being considered arbitrary and capricious.

Vice Chair Oliveira Cabbab noted that the Board could be using current national standards to evaluate training.

Dr Pedro suggested that the Board continue to pursue updating standards for training.

Members agreed.

EO Fernandez suggested considering bringing this matter to the stakeholders of the statutory chapter, e.g., professional associations, and other departments.

The Board will continue discussion of developing the training standards based on APPIC standards at subsequent meetings.

B. Internship and Postdoctoral Experience Reporting
