

CONTRACTORS LICENSE BOARD
Professional and Vocational Licensing Division
Department of Commerce and Consumer Affairs
State of Hawaii

AGENDA

Date: May 23, 2025

Time: 9:00 a.m.

Place: In-Person Meeting
King Kalakaua Conference Room
HRH King Kalakaua Building
Location: 335 Merchant Street, First Floor
Honolulu, Hawaii 96813

Agenda: The agenda was posted on the State electronic calendar as required by Hawaii Revised Statutes ("HRS") section 92-7(b).

If you wish to submit written testimony on any agenda item, please email your testimony to contractor@dcca.hawaii.gov or by hard copy mail to: Attn: Contractors License Board, P.O. Box 3469, Honolulu, HI 96801. We request submission of testimony at least 24 hours prior to the meeting to ensure that it can be distributed to the Board members.

Call to Order:

Minutes: Approval of the Applications Committee Meeting Minutes of May 5, 2025 and the Board Meeting Minutes of March 21, 2025.

Committee Reports:

1. **Scope of Activity Committee:**
Paul Alejado and John Polischeck, Co-Chairpersons

Naz Senaldi

Requests a determination on whether a contractor's license is required to maintain, service, and repair commercial kitchen packaged equipment such as ice makers, walk-in coolers and freezers, undercounter refrigerators, and reach-in refrigerators. Maintenance and repair services may include cleaning and sanitizing internal components, cleaning coils and drains, and replacing various parts such as water/temperature sensing sensors, expansion valves, compressors, and other internal components of packaged units.

This matter was deferred at the April 25, 2025 meeting pending the submittal of a more detailed description of the "other internal components of packaged units" that are being replaced. Mr. Senaldi stated that other parts vary based on the unit however most frequently changed parts rather than previously listed are thermostats, LCD screens, fans, fan motors, and heating elements.

Contractor

Consumer

Education Fund:

Media on Hiring Licensed Contractors

Follow-up discussion and decision making regarding new media for consumers on hiring licensed contractors

Chapter 91, HRS,

Adjudicatory

Matters:

1. Settlement Agreements

- a. In the Matter of the Contractor License of Mali Bella Company, LLC, doing business as Mali Bella Construction; CLB 2024-195-L
- b. In the Matter of the Contractor License of Mali Bella Company, LLC, doing business as Mali Bella Construction; CLB 2024-381-L
- c. In the Matter of the Contractor License of David P. Luedtke; CLB 2024-381-L
- d. In the Matter of the Contractor License of David P. Luedtke; CLB 2024-195-L

Reconvene

to Chapter 92

Meeting:

The Board may enter into Executive Session to consider and evaluate personal information relating to individuals applying for professional or vocational licenses in accordance with Hawaii Revised Statutes section 92-5(a)(1), and to consult with the board's attorney on questions and issues pertaining to the Board's powers, duties, immunities, and liabilities in accordance with Hawaii Revised Statutes section 92-5(a)(4).

Call to Order: There being a quorum present, Chairperson Nishek called the meeting to order at 9:10 a.m.

Agenda: The agenda was posted on the State electronic calendar as required by Hawaii Revised Statutes ("HRS") section 92-7(b).

Amendments to the Agenda:

The following amendments to the agenda are to correct inadvertent errors:

Move the following applications to "Appearances Before the Board":

Kurt J Malley, RME
Northwest Exteriors Inc
C-5 Cabinet, millwork, and carpentry remodeling and repairs

R & R Equipment Rentals LLC
Ryan K Paik, RME
"A" General engineering
"B" General building

Nathan M Trahern, RME
Eric F Anderson Inc
"B" General building

Minutes: It was moved by Mr. Alejado, seconded by Mr. Polischeck, and unanimously carried to approve the Applications Committee Meeting Minutes of March 3, 2025 and the Board meeting minutes of January 24, 2025.

Executive Session:

At 9:13 a.m., it was moved by Mr. Polischeck, seconded by Mr. Torigoe, and unanimously carried to enter into executive session pursuant to HRS section 92-5(a)(1), to consider and evaluate personal information relating to individuals applying for professional or vocational licenses cited in HRS section 26-9, and to consult with Jordan Ching, Deputy Attorney General, on questions and issues pertaining to the Board's powers, duties, privileges, immunities, and liabilities pursuant to HRS section 92-5(a)(4).

At 2:13 p.m., it was moved by Mr. Polischeck, seconded by Mr. Alejado and unanimously carried to move out of executive session and to reconvene to the Board's regular order of business.

Appearances

Before the Board:

- a. Kevin Thompson RME
Bellingham Marine Industries Inc
“A” General engineering

After discussion, it was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to defer Kevin Thompson RME and Bellingham Marine Industries Inc applications for licensure in the “A” General engineering classification pending the submittal of additional projects (on the Board’s form) to verify his forty-eight months of on-site supervision of his own employees and direction of the means and methods in the broad scope of the “A” General engineering classification.

- b. Elite Plus Real Estate – Orem A Professional Limited Liability Company
Michael K Matsuzaki RME
“A” General engineering
“B” General building

After discussion Michael K Matsuzaki withdrew his RME and Elite Plus Real Estate – Orem A Professional Limited Liability Company’s applications for licensure in the “A” General engineering and “B” General building classifications and amended his applications to apply for licensure in the C-5 Cabinet, millwork, and carpentry remodeling and repairs and C-68MI Prefabricated metal buildings classifications. It was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to defer Michael K Matsuzaki’s RME and Elite Plus Real Estate – Orem A Professional Limited Liability Company’s applications for licensure in the C-5 Cabinet, millwork, and carpentry remodeling and repairs and C-68MI Prefabricated metal buildings classifications pending the submittal of project lists verifying forty-eight months of his on-site supervision of his own employees in the broad scope of the C-5 and C-68MI classification and ensure that the respective project lists are specific to C-5 and C-68MI work.

- c. National Interior Solutions LLC
Naz Senaldi, RME
C-40 Refrigeration

After discussion Naz Senaldi withdrew his RME and National Interior Solutions LLC's applications for licensure in the C-40 Refrigeration classification.

- d. WY Construction Inc
Wilson Yu, RME
"B" General building

After discussion, it was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to defer WY Construction Inc and Wilson Yu's RME applications pending the submittal of a revised project list verifying forty-eight months of his on-site supervision of his own employees constructing buildings from the "ground-up" and from start to finish. Mr. Yu may document projects from more than ten years ago where he was directing the means and methods of projects in the broad scope of the "B" General building classification.

- e. Kurt Malley RME
Northwest Exteriors Inc
C-5 Cabinet, millwork, and carpentry remodeling and repairs

After discussion, it was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to defer Kurt Malley's RME application pending the submittal of a revised project list verifying forty-eight months of his on-site supervision and direction of his own employees performing work in the broad scope of the C-5 Cabinet, millwork, and carpentry remodeling and repairs classification. Mr. Malley may document projects where he was on-site directing and supervising his own crew in the broad scope of the C-5 classification from more than ten years ago.

- f. R & R Equipment Rentals LLC
Ryan K Paik, RME
“A” General engineering
“B” General building

The Applications Committee is recommending approval of R & R Equipment Rentals LLC and Ryan K Paik’s RME applications for licensure in the “B” General building classification. After discussion Ryan K Paik withdrew his RME and R & R Equipment Rentals LLC’s applications for licensure in the “A” General engineering and amended his applications to also apply for licensure in the C-17 Excavating, grading, and trenching and C-37a Sewer and drain line classifications. It was moved by Mr. Higashihara, seconded by Mr. Alejado, and carried by majority vote (with Chairperson Nishek recusing himself) to defer Ryan K Paik’s RME and R & R Equipment Rentals LLC’s applications for licensure in the C-17 Excavating, grading, and trenching and C-37a Sewer and drain line classifications pending the submittal of project lists verifying forty-eight months of his on-site supervision of his own employees in the broad scope of the C-17 and C-37a classifications and ensure that the respective project lists are specific to C-17 and C-37a work.

- g. Nathan M Trahern, RME
Eric F Anderson Inc
“B” General building

After discussion, it was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to defer Nathan M Trahern’s RME application for licensure in the “B” General building classification pending the submittal of additional projects to verify his forty-eight months of on-site supervision and direction of his own crew constructing building from the “ground-up” and from start to finish.

Committee
Reports:

1. Applications Committee Report
Candace Ito, Executive Officer
 - a. Dome Technology LLC
Mitchell Cade South, RME
“B” General building

At its February 21, 2025 meeting the Board determined that an “A” General engineering classification is required to construct industrial storage domes and requested additional information on the work that will be self-performed to determine whether other contractor licenses are required. Thus, Jason South submitted an application for licensure in the “A” General Engineering. After discussion, Dome Technology LLC withdrew its application and Mitchell Cade South’s RME application for licensure in the “B” General building classification and amended Jason South’s RME and Dome Technology LLC’s applications to apply for licensure in the “A” General engineering, C-41 Reinforcing steel and C-48 Structural steel classifications. It was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to defer Dome Technology LLC and Jason South’s RME applications for licensure in the “A” General engineering, C-41 Reinforcing steel and C-48 Structural steel classifications pending the submittal of project lists verifying forty-eight months of Jason South’s on-site supervision of his own employees in the broad scope of the “A” General engineering, C-41 Reinforcing steel, and C-48 Structural steel classifications.

- b. Stellex Power Line Opco LLC
Fred Kauhane RME
C-62 Pole and line

After discussion, it was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to approve Stellex Power Line Opco LLC and Fred Kauhane’s RME applications for licensure in the C-62 Pole and line classification.

2. Conditional License Report
Lei Ana Green, Executive Officer

- a. Echo Construction LLC
Gregory Sado RME
“A” General engineering

After discussion, it was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to approve Echo Construction LLC and Gregory Sado’s RME applications for licensure in the “A” General engineering classification.

- b. Vaifoou Construction LLC LLC
Siaosi Vaifoou RME
C-31 Masonry

After discussion it was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to approve Vaifoou Construction LLC and Siaosi Vaifoou’s RME applications for licensure in the C-31 Masonry classification subject to semiannual reports on financial matters in accordance with HRS section 444-4(1) and HAR section 16-77-24.

3. Applications Committee

Applications Committee Recommendations

- a. Request for Change in Business Status
- b. Request for Waiver of Bond Requirement
- c. Applications for Licensure

It was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to approve, defer, deny, or withdraw the license applications on the Applications Committee Attachment in the above categories as attached to the meeting minutes.

4. Owner-Builder Exemption Applications

- a. Mark and Holly Ihrig

After discussion, it was moved by Mr. Higashihara, seconded by Mr. Alejado and unanimously carried to deny Mark and Holly Ihrig’s

application for an owner-builder exemption to sell their structure within one year of its completion.

The following agenda item was taken out of order.

Hawaii

Administrative Rules: Proposed Amendment to HAR section 16-77-34
Definition of "Incidental and Supplemental" Work

The Board received testimony on the proposed amendment to HAR section 16-77-34 from the International Union of Painters and Allied Trades, District Council 50 ("DC 50"). DC 50 requests that all references to the term "contractor" be changed to "specialty contractor". In their testimony, DC 50 stated that this revision is to conform the proposed amendment to Hawaii Revised Statutes section 444-8(c) which only allows specialty contractors to perform "Incidental and supplemental" work.

At 2:22 pm, it was moved by Mr. Higashihara, seconded by Mr. Alejado, and unanimously carried to enter into executive session to consult with Jordan Ching, Deputy Attorney General, on questions and issues pertaining to the Board's powers, duties, privileges, immunities, and liabilities pursuant to HRS section 92-5(a)(4).

At 2:29 p.m., it was moved by Mr. Alejado, seconded by Mr. Torigoe and unanimously carried to move out of executive session and to reconvene to the Board's regular order of business.

The Board reviewed the Board's Final Order Upon remand in which the Supreme Court disagreed with DC 50's assertion that the Okada Trucking case prohibited general contractors from engaging in "incidental and supplemental" work in trades or crafts in which they are not licensed because the Court recognized that general contractors also hold specialty contractor licenses. The Board reaffirmed its longstanding interpretation that "A" General engineering and "B" General building contractors who hold specialty contractor's

license(s) that were automatically provided under HAR chapter 16-77 or obtained on their own, may perform other specialty contracting work that is “incidental and supplemental” to the licensed specialty contracting work. In other words, general contractors are not prohibited under Okada Trucking from performing specialty contracting work outside of their specialty contractor licenses when that work is “incidental and supplemental” to work performed within the scope of their specialty contractor licenses. In those situations, they are acting as specialty contractors, and not as general contractors.

Executive Officer Ito stated that the Board reviewed the testimony submitted by DC 50 and based upon their interpretation of the Board’s Final Order Upon Remand, which has been reviewed and affirmed by the Supreme Court, the Board is declining to accept the amendments proposed in DC 50’s testimony. It was moved by Mr. O’Donnell, seconded by Mr. Higashihara, and unanimously carried to decline to accept the amendments proposed in DC 50’s testimony.

5. Examination Committee

Jerry Nishek, Chairperson

Contractors Examination Summary

The Contractors Examination Summary for February 2025 was distributed to the Board for their information.

2025 Legislation

Relating to Contractors

a. H.B. 421, H.D.1

Repeals the leasing restriction on owner-builders who obtain an owner-builder exemption to act as their own contractor and who build or improve residential or farm buildings or structures on property they own or lease and do not offer the buildings or structures for sale. Requires an owner or lessee to provide signed written notice that the

structure for lease or sublease was built or improved by an individual who is not a licensed contractor. Effective 7/1/3000.

The House Committee on Housing (“HSG”) referred H.B. 421, H.D.1 to the House Committee on Consumer Protection and Commerce (“CPC”). CPC did not hold a hearing on this bill.

b. H.B. 846

Raises the threshold exemption under the contractor licensing law's handyman exemption from \$1,500 to \$2,500.

This bill had a single referral to CPC and was not scheduled for a hearing.

c. S.B. 417, S.D.1

Establishes as a class B felony the unlicensed performance of contractor work, during or within 5 years following a national emergency, state of emergency, or disaster proclamation, in an affected political subdivision. Effective 7/1/2050.

The Senate Committee on Commerce and Consumer Protection (“CPN”) and the Senate Committee on Public Safety and Military Affairs (“PSM”) referred S.B. 417, S.D.1 to the Senate Committee on Judiciary (“JDC”). JDC did not hold a hearing on this bill.

Relating to Renewable Energy

a. S.B. 588, S.D.2

Authorizes certain government entities to establish a self-certification process for behind-the-meter, customer-sited solar distributed energy resource systems and exempt the systems from the Federal Emergency Management Agency No-Rise/No-Impact declaration requirements under certain circumstances. Effective 7/1/2050.

On March 11, 2025, the Senate Committee on Energy & Environmental Protection (“EEP”) held a hearing on this bill and deferred this measure.

Relating to Building Permits

H.B. 367, H.D.2

Allows for county permit exemptions for certain kinds of activities, including maintenance activities, installing group U structures, and interior remodeling work, when located outside a special management area. Effective 1/1/3000.

On March 7, 2025 the Senate Committee on Housing (“HOU”) held a hearing on H.B. 367, H.D.2 and passed it with the following amendments:

- (1) Clarifying that exempted interior remodeling shall not change the use of a group U structure;
- (2) Inserting language requiring an owner or occupier to submit plans, in addition to providing written notice, to the appropriate county agency about the type of proposed work;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

HOU referred H.B. 367, H.D.2, S.D.1 to JDC. JDC has not scheduled a hearing in on this bill.

Relating to Remedies

a. H.B. 420, H.D.3

Clarifies the applicability of the statute of repose for actions arising from construction defects. Repeals the two-year limitation for actions arising from construction defects. Clarifies the required contents of a notice of claim of construction defect served on a contractor. Specifies that claimants must comply with the Contractor Repair Act and bars persons from joining a class for failure to comply with the Contractor

Repair Act. Amends the process and time frame for a claimant to accept a contractor's offer to settle or inspect. Limits the amount a claimant can recover if the claimant rejects a contractor's reasonable proposal for inspection or a reasonable offer to remedy. Clarifies the consequences of rejecting an offer of settlement. Effective 7/1/3000.

On March 19, 2025, CPN amended this measure by deleting its contents and inserting the contents of S.B. 1650, a substantively similar measure that:

- (1) Clarifies that the Statute of Repose applies to contract, tort, and statutory claims;
- (2) Specifies the required contents in a notice of claim of construction defect served on a contractor;
- (3) Requires a claimant to provide actual evidence of the nature and cause of the construction defect, the extent of necessary repairs, and the notice of the claim; and
- (4) Amends the process and time frame for a claimant to accept a contractor's proposal to inspect and authorize the contractor to proceed with repairs.

CPN referred H.B. 420, H.D.3, S.D.1 to JDC.

Tracy Tonaki, DR Horton Hawaii, stated that she is available to answers any questions.

The Board came to a consensus to continue to track this bill.

b. S.B. 179, S.D.1

Clarifies the applicability of the statute of repose for actions arising from construction defects. Clarifies the required contents of a notice of claim of construction defect served on a contractor. Amends the process and time frame for a claimant to accept a contractor's offer to settle or inspect and authorize the contractor to proceed with repairs. Limits the amount a claimant can recover if the claimant rejects a contractor's reasonable proposal for inspection or a reasonable offer

to remedy. Clarifies the consequences of rejecting an offer of settlement. Effective 7/1/2050.

S.B. 179, S.D.1 was referred to JDC. JDC did not hold a hearing on this bill.

Recovery Fund:

Recovery Fund Report:

Zale T. Okazaki, Esquire

Ms. Okazaki's Recovery Fund Report dated March 16, 2025 was distributed to the Board for their information.

The following agenda item was taken out of order.

Contractor
Consumer
Education Fund:

Media on Hiring Licensed Contractors

William Nhieu, DCCA Communications Officer stated that during the past 18 months, the Board has discussed advertising for unlicensed contracting through PSAs. The Contractor Education Fund monies went to a Maui centric PSA, a more general PSA, and a storytelling PSA on rebuilding Lahaina. The Department also produced a contractor PSA and is working on a Business Check PSA. There are four PSAs in the hopper for production. In addition, there is a 30 second PSA, a couple of 15 second cuts and a couple of 5 second cuts for radio, online platform, TV and social media advertising.

The Board viewed the Maui centric PSA funded by the Contractor Education Fund. It featured a girl scout, surfing instructor and construction worker soliciting a homeowner. Mr. Nhieu stated that the PSA was filmed on Maui and the Deputy Director was there for the filming. The point of this PSA was to say no to unlicensed contractors. The PSA could direct the consumer to the Hire A Licensed Contractor website or the Business Check website. The vendor is filming a second PSA that will be delivered in late April. Executive Officer Ito asked if the second PSA will include some types

of work that require a licensed contractor. Mr. Nhieu stated, no because it would take more than 30 seconds. Executive Officer Ito stated that the original PSA mentioned a few examples of work that requires a contractor, and it would be good if the PSA could mention a few classifications that people don't normally think requires a contractor. Mr. Nhieu stated that is possible and he would take a look at the story board.

The Board viewed a second PSA that was produced by a different vendor and did not use money from the Contractor Education Fund. It featured a contractor repairing a ceiling fan. Mr. Nhieu stated that the Communications Team is trying to create a range of PSAs.

Mr. Nhieu stated that now that the PSAs are produced, we need to discuss funding the advertising. The Communications Team had previously asked the Board to consider a \$100,000.00 advertising budget. The options are to advertise through TV using the Hawaii Association of Broadcasters ("HAB"), partnering with Spectrum to do an integrated campaign which includes Over The Top advertising (advertising via streaming services), for example, commercials on HGTV and Hulu. Using HAB is more economical because TV stations donate spots to HAB, however, you don't get to pick when your PSA airs. HAB guarantees a 3 to 1 rate of return. HAB rules do not allow us to buy direct if we use HAB. He recommended supplementing the HAB TV ads with a digital campaign including pre-roll on websites, you tube, HGTV, and streaming Apps like Amazon. Mr. Nhieu stated that the Department is asking for approval of up to \$100,000.00 and the Communications Office in collaboration with PVL will utilize the funds to the best viable campaign which will be a combination of HAB and a digital campaign, social media, and streaming.

The Board asked for the amount in the Contractors Education Fund; Executive Officer Ito stated, \$717,547.87. Executive Officer Ito asked if there was a ballpark figure of the number of times the PSA would be

aired with the \$100,000.00 advertising budget. Mr. Nhieu stated that he did not have the figures with him, however, in the past DCCA experienced an 8 to 1 rate of return. Typically, an ad on the 6 pm, 7:00 pm, and 10 pm news costs \$250.00 to \$300.00 for a 30 second spot. HAB will provide an affidavit of the time slots. Most State agencies use HAB.

Mr. Lau asked if the PSAs are completed and whether the Board has a choice on the productions. Mr. Nhieu stated that the girl scout PSA is completed and has been approved by the Directors Office. Mr. Nhieu stated that the ask is for a \$100,000.00 advertising budget as discussed earlier. The Deputy Director would like to run a flight at the Maui Film Festival. The Board asked why the Communications Team is coming to the Board when the decision to approve the PSA has already been made by the Directors Office. Mr. Nhieu stated that he could not speak to that.

The Board stated that they want to be sure to get the best value for the money they are spending because they are approving the use of funds from the Education Fund. Mr. Nhieu stated that CLB's contract with International Cultural Arts Network was for 2- 30 second PSAs, 4- 15 second PSAs, and 4-5 second PSAs. The total cost of their contract was \$75,959.00. The request from the Directors Office is if the Board would be open to fund the remainder of the contract (\$26,000.00). The Board expressed concerns about the amount of funds being requested as it is approximately 20% of the Education Fund and stated that they need to discuss this matter. Mr. Nhieu stated that he had another meeting to attend and excused himself.

Next Meeting: Friday, April 25, 2025

Adjournment: There being no further business to discuss, the meeting was adjourned at 3:07 p.m.

Arlene
Jeff Seifert

Agenda: The agenda for this meeting was posted on the State electronic calendar, as required by Hawaii Revised Statutes ("HRS") section 92-7(b).

A short video was played to explain procedures for this virtual meeting and how members of the public can participate and interact with the Board during the meeting.

Call to Order: Chairperson Alejado called the meeting to order at 2:13 p.m.

Amendments to

the Agenda: The following amendments to the agenda is to correct inadvertent errors:

1. Delete: Page 26, No. 205
Mainz Builders Hawaii Inc
Morgan Mainz, RME
"B" General building
Withdrawn at the April 25, 2025 meeting
2. Delete: Page 42, No. 375
Vaifoou Construction LLC
Siaosi U Vaifoou, RME
"B" General building (Withdraw 01/25)
C-31 Masonry (Approved at 3/25 meeting)
3. Add: Peak Performance Energy LLC
Michael D Cooper, RME
C-13 Electrical

It was moved by Mr. Lau, seconded by Mr. Polischek, and unanimously carried to approve the amendments to the agenda.

Review of License Applications and Recommendations to the Contractors License Board

Chairperson Alejado, Executive Officer Shahan, Executive Officer Ito, and Executive Officer Green read the Applications Committee's recommendations to the Contractors License Board ("Board") for the applications on the meeting agenda.

It was moved by Mr. Torigoe, seconded by Mr. Polischek, and unanimously carried to approve the attached Applications Committee Recommendations.

Next Applications

Committee Meeting: June 2, 2025

Adjournment: There being no further business to discuss, the meeting was adjourned at 2:58 p.m.

Taken and recorded by:

/s/ Candace Ito

Candace Ito
Executive Officer

Hi Candace,

Other parts varies based on the unit however most frequently changed parts rather than previously listed are:

Thermostats, LCD screens, fans, fan motors, and heating elements. Thank you.

Dear Mr. Senaldi,

This is in response to your April 6, 2025 email requesting a determination on whether a contractor's license is required to maintain, service, and repair commercial kitchen packaged equipment such as ice makers, walk-in coolers and freezers, undercounter refrigerators, and reach-in refrigerators. In your email, you stated that maintenance and repair services may include cleaning and sanitizing internal components, cleaning coils and drains, and replacing various parts such as water/temperature sensing sensors, expansion valves, compressors, and other internal components of packaged units.

At its April 25, 2025 meeting, the Contractors License Board ("Board") reviewed and discussed your April 6, 2025 email and voted to defer this matter pending the receipt of additional information of the work that is being performed. Specifically, the Board would like you to provide a more detailed description of the "other internal components of packaged units" that you are replacing.

The next board meeting is scheduled for May 23, 2025. Please provide the additional information by noon on May 15, 2025, so that your inquiry may be placed on the Board's next meeting agenda.

If you have any questions on the above, please do not hesitate to email me at contractor@dcca.hawaii.gov. Thank you for your inquiry.

Very truly yours,

Candace Ito
Executive Officer

Naz Senaldi

CAUTION: This email originated from outside of Hawaii State Gov't / DCCA. Do not click links or open attachments unless you recognize the sender and are expecting the link or attachment.

Our maintenance and repair services may include cleaning and sanitizing internal components, cleaning coils and drains, and replacing various parts such as water/temperature sensing sensors, expansion valves, compressors, and other internal components of packaged units as I explained during the March Board meeting.

I was instructed by the board members to ask the following question that covered all my concerns that I can provide to customers:

"Do I need a contractor's license to maintain, service, and repair commercial kitchen packaged equipment such as ice makers, walk-in coolers and freezers, undercounter refrigerators, and reach-in refrigerators? Our maintenance and repair services may include cleaning and sanitizing internal components, cleaning coils and drains, and replacing various parts such as water/temperature sensing sensors, expansion valves, compressors, and other internal components of packaged units."

Mahalo,

Aloha Lei Ana,

Please see the attached document as I just got this notice. I will work on attending the February meeting.

Appreciate it if you can provide why my experience affidavit is not acceptable. I tried to break it down as much as possible. Please advise how I can make it more clear.

Thank you.

Naz

DESCRIPTION OF CONTRACTOR LICENSE CLASSIFICATIONS

I. Introduction

The following are selected excerpts from the Contractors License Board's laws and rules pertaining to the various contractor license classifications. For the official version of the laws and rules, please refer to most current language in Hawaii Revised Statutes ("HRS") chapter 444 and Hawaii Administrative Rules ("HAR") chapter 16-77.

II. "A" General Engineering Contractor

Under HRS section 444-7(b), a "general engineering contractor" is defined as "a contractor whose principal contracting business is in connection with fixed works requiring specialized engineering knowledge and skill, including the following divisions or subjects: irrigation, drainage, water power, water supply, flood control, inland waterways, harbors, docks and wharves, shipyards and ports, dams and hydroelectric projects, levees, river control and reclamation works, railroads, highways, streets and roads, tunnels, airports and airways, sewers and sewage disposal plants and systems, waste reduction plants, bridges, overpasses, underpasses and other similar works, pipelines and other systems for the transmission of petroleum and other liquid or gaseous substances, parks, playgrounds and other recreational works, refineries, chemical plants and similar industrial plants requiring specialized engineering knowledge and skill, powerhouses, power plants and other utility plants and installations, mines and metallurgical plants, land levelling and earth-moving projects, excavating, grading, trenching, paving and surfacing work and cement and concrete works in connection with the above mentioned fixed works."

Under HAR section 16-77-32(a) and (b):

"(a) Licensees who hold the "A" general engineering contractor classification shall automatically hold the following specialty classifications without further examination or paying additional fees:

- (1) C-3 asphalt paving and surfacing;
- (2) C-9 cesspool;
- (3) C-10 scaffolding;
- (4) C-17 excavating, grading, and trenching;
- (5) C-24 building moving and wrecking;
- (6) C-31a cement concrete;

- (7) C-32 ornamental guardrail, and fencing;
- (8) C-35 pile driving, pile and caisson drilling, and foundation;
- (9) C-37a sewer and drain line;
- (10) C-37b irrigation and lawn sprinkler systems;
- (11) C-38 post tensioning;
- (12) C-43 sewer, sewage disposal, drain, and pipe laying;
- (13) C-49 swimming pool;
- (14) C-56 welding;
- (15) C-57a pumps installation;
- (16) C-57b injection well;
- (17) C-61 solar energy systems.

(b) The "A" general engineering contractor may also install poles in all new pole lines and replace poles, provided that the installation of the ground wires, insulators, and conductors is performed by a contractor holding the C-62 pole and line classification. The "A" general engineering contractor may also install duct lines, provided that the installation of conductors is performed by a contractor holding the C-13 electrical classification."

III. **"B" General Building Contractor**

Under HRS section 444-7(c), a "general building contractor" is defined as "a contractor whose principal contracting business is in connection with any structure built, being built, or to be built, for the support, shelter, and enclosure of persons, animals, chattels, or movable property of any kind, requiring in its construction the use of more than two unrelated building trades or crafts, or to do or superintend the whole or any part thereof."

Under HAR section 16-77-32(c):

"(c) Licensees who hold the "B" general building contractor classification shall automatically hold the following specialty classifications without further examination or paying additional fees:

- (1) C-5 cabinet, millwork, and carpentry remodeling and repairs;
- (2) C-6 carpentry framing;
- (3) C-10 scaffolding;
- (4) C-12 drywall;
- (5) C-24 building moving and wrecking;
- (6) C-25 institutional and commercial equipment;
- (7) C-31a cement concrete;
- (8) C-32a wood and vinyl fencing;

- (9) C-42a aluminum and other metal shingles;
- (10) C-42b wood shingles and wood shakes."

IV. "C" Specialty Contractor

Under HRS section 444-7(d), a "specialty contractor" is defined as "a contractor whose operations as such are the performance of construction work requiring special skill such as, but not limited to, electrical, drywall, painting and decorating, landscaping, flooring, carpet laying by any installation method, plumbing, or roofing work, and others whose principal contracting business involves the use of specialized building trades or crafts."

Exhibit "A" to HAR chapter 16-77 states that:

"Specialty contractors are further classified under the following subclassifications:

- C-1 Acoustical and insulation contractor;
- C-2 Mechanical insulation contractor;
- C-3 Asphalt paving and surfacing contractor;
- C-3a Asphalt concrete patching, sealing, and striping contractor;
- C-3b Play court surfacing contractor;
- C-4 Boiler, hot-water heating, and steam fitting contractor;
- C-5 Cabinet, millwork, and carpentry remodeling and repairs contractor;
- C-5a Garage door and window shutters contractor;
- C-5b Siding application contractor;
- C-6 Carpentry framing contractor;
- C-7 Carpet laying contractor;
- C-9 Cesspool contractor;
- C-10 Scaffolding contractor;
- C-12 Drywall contractor;
- C-13 Electrical contractor;
- C-14 Sign contractor;
- C-15 Electronic systems contractor;
- C-15a Fire and burglar alarm contractor;
- C-15b Telecommunications contractor;
- C-16 Elevator contractor;
- C-16a Conveyor systems contractor;
- C-17 Excavating, grading, and trenching contractor;

| | |
|-------|---|
| C-19 | Asbestos contractor; |
| C-20 | Fire protection contractor; |
| C-20a | Fire repressant systems contractor; |
| C-21 | Flooring contractor; |
| C-22 | Glazing and tinting contractor; |
| C-22a | Glass tinting contractor; |

| C-44 | Sheet metal contractor; |
| C-44a | Gutters contractor; |
| C-44b | Awnings and patio cover contractor; |
| C-48 | Structural steel contractor; |
| C-48a | Steel door contractor; |
| C-49 | Swimming pool contractor; |
| C-49a | Swimming pool service contractor; |
| C-49b | Hot tub and pool contractor; |
| C-51 | Tile contractor; |
| C-51a | Cultured marble contractor; |
| C-51b | Terrazzo contractor; |
| C-52 | Ventilating and air conditioning contractor; |
| C-53 | Miscellaneous retail products contractor; |
| C-54 | Interior design contractor; |
| C-55 | Waterproofing contractor; |
| C-56 | Welding contractor; |
| C-57 | Well contractor; |
| C-57a | Pumps installation contractor; |
| C-57b | Injection well contractor; |
| C-60 | Solar power systems contractor; |
| C-61 | Solar energy systems contractor; |
| C-61a | Solar hot water systems contractor; |
| C-61b | Solar heating and cooling systems contractor; |
| C-62 | Pole and line contractor; |
| C-62a | Pole contractor; |
| C-63 | High voltage electrical contractor; and |
| C-68 | Classified specialist. |

The scope of work of each specialty contractor classification shall be as follows:

- C-1 **Acoustical and insulation contractor.** To install interior or exterior acoustic tile systems, spray systems, and insulation in buildings and structures for the purpose of sound control. These systems or materials may be installed independently of or in conjunction with acoustic tile and/or drywall systems as multipurpose (acoustic, insulation, fire retardant) systems;
- C-2 **Mechanical insulation contractor.** To install insulation materials on mechanical systems for the purpose of temperature control.
- C-3 **Asphalt paving and surfacing contractor.** To proportion, mix, and place base materials; and to place paving and surfacing consisting of graded mineral aggregates bonded with asphalt or bituminous materials so that a firm, smooth surface suitable for roadways, runways, driveways, parking areas, and play areas is obtained, including the application of seal coating and parking lot or highway striping;
- C-3a **Asphalt concrete patching, sealing, and striping contractor.** To patch asphalt roadways, runways, driveways and parking areas so that a suitable surface is obtained; to seal coat surfaces, to paint parking stripes, highway stripes, or playcourt lines, and to install epoxy buttons or white dome dividers on highways;
- C-3b **Play court surfacing contractor.** To prepare or install existing or new surfaces; to install materials or apply top or seal coating so that a level, suitable play court surface is obtained; and to paint playcourt lines;
- C-4 **Boiler, hot-water heating, hot water supply, and steam fitting contractor.** To install and repair fire-tube and water-tube power boilers, packaged boiler systems, hot-water heating and hot water supply boilers, and thermal fluid systems; including all fitting and piping, valves, gauges, pumps, radiators, convectors, fuel oil tanks, fuel oil lines, hazardous waste storage tanks, chimneys, flues, heat insulation, and all other devices, apparatus, and equipment appurtenant thereto, including the insulation of pipes in connection with the boiler installation or repair, and

installation of hydromatic radiant heating systems (warm floor) provided these are connected to a boiler;

- C-5 Cabinet, millwork, and carpentry remodeling and repairs contractor.** To install cabinets, cases, sashes, doors, trims, or nonbearing partitions that become a permanent part of structure, and to remodel or to make repairs to existing buildings or structures, or both; and to do any other work which would be incidental and supplemental to the remodeling or repairing. The repairs, carpentry work, or remodeling shall include the installation of window shutters, garage doors, bifold, and shutter doors; and the installation of manufactured sidings and any other work that would not involve changes or additions to the building's or structure's basic components such as, but not limited to, foundations, beams, rafters, joists, or any load bearing members or sections;
- C-5a Garage door and window shutters contractor.** To install overhead, mechanical and sliding garage doors, including installation of window shutters which involves similar installation methods;
- C-5b Siding application contractor.** To prepare surfaces and install aluminum, vinyl or other manufactured siding, with the exception of wood, so that a watertight surface is obtained;
- C-6 Carpentry framing contractor.** To do wood and metal framing, siding, wood truss, roof sheathing, and other work as is by custom and usage accepted in the construction industry as carpentry framing;
- C-7 Carpet laying contractor.** To apply or install acceptable fabric floor coverings, artificial turf, or other prefabricated materials to surfaces;
- C-9 Cesspool contractor.** To excavate and install cesspools and septic tanks in compliance with the requirements of the department of health;

- C-10 **Scaffolding contractor.** To erect or dismantle scaffolds only. The other contractor classifications may automatically perform this type of work in connection with their classifications;
- C-12 **Drywall contractor.** To layout and install nonstructural metal studs, channel and joist framing systems, and all types of gypsum wallboard systems, including the taping and texturing operations incidental thereto. Also included is the application of spray on barriers which would be incidental to the installation of wallboard;
- C-13 **Electrical contractor.** To place, install, erect, or connect any electrical wires, fixtures, appliances, apparatus, electrical signs, conduits, poles, raceways, and to do trenching, backfilling, patching, and surface restoration in connection with the installation of conduits and lines which transmit, transform, or utilize electrical energy less than 600 volts phase to phase. This classification also includes the work of the C-15 electronic systems contractor and C-60 solar power systems contractor;
- C-14 **Sign contractor.** To fabricate or install electrical or nonelectrical signs and sign devices for the purpose of display, advertising, or directions; and to install all sign supports and sign accessories;
- C-15 **Electronic systems contractor.** To install electronic equipment and electronic controls, including but not limited to, public address, intercommunication, master antenna, and music distribution systems, CATV systems, master and program clock systems, electronic teaching devices, and other systems including electric door opening devices and fire and burglar alarm systems; provided that this shall not include the installation of any conduits thereto;
- C-15a **Fire and burglar alarm contractor.** To install, maintain, and repair central fire and burglar alarm systems; provided that this shall not include the installation of any conduits thereto;
- C-15b **Telecommunications contractor.** To install, maintain, and repair telephone, computer, and data systems; including the

associated cabling, wiring, or fiber optics; provided that this shall not include the installation of any conduits thereto;

- C-16 **Elevator contractor.** To assemble and install and maintain sheave beams, motors, sheaves, cable and wire rope, guides, cab, counterweight, door assemblies, hydraulic systems, automatic and manual control systems, signal systems, and all other devices, apparatus, and equipment for the safe and efficient installation and operation of electrical, hydraulic, and manually operated elevators, dumb waiters, moving walks or ramps, conveyor systems, stage lifts, escalators, and man lifts excluding any lift or conveyor used in constructing a building or structure. To make or oversee alterations within the cab of the elevator which require a permit from the department of labor and industrial relations;
- C-16a **Conveyor systems contractor.** To install belt line conveyor systems including installation of baggage carousels;
- C-17 **Excavating, grading, and trenching contractor.** To dig, move, and place earthen material for a cut, fill, grade, or trench, including the use of explosives in connection therewith;
- C-19 **Asbestos contractor.** To engage in any activity involving the application, enclosure, removal, encapsulation, renovation, repair, demolition, or other disturbances of asbestos or asbestos-containing material that may become friable;
- C-20 **Fire protection contractor.** To lay out and install approved types of fire prevention and protective systems, including all mechanical apparatus, devices, piping, and equipment appurtenant thereto. The licensee shall comply with applicable provisions of the National Board of Fire Underwriters (NBFU) standards to meet all requirements of the local authorities having jurisdiction;
- C-20a **Fire repressant systems contractor.** To install tanks, piping, sprinkler heads, dry chemical systems, CO₂ systems, and halon systems related to fire repressant systems;

- C-21 **Flooring contractor.** To apply or install floor covering material such as linoleum, rubber, vinyl, cork, asphalt, plastic aluminates, or other materials that are by custom and usage accepted in the construction industry as composition flooring; including the installation of wood floor covering and also to include floor sanding and refinishing of floor surfaces. This also includes the use of rubber granules to create a floor covering or surface;
- C-22 **Glazing and tinting contractor.** To glaze or tint frames, panels, sash, and doors. To assemble and install window wall and curtain wall, shower doors, tub enclosures, mirrors, metal windows and screens, metal sliding doors, metal жалousies, store front metal and trim, plastics, tempered glass doors; including items such as frames and hardware and any allied products not stated above but affiliated with the glass and glazing industry;
- C-22a **Glass tinting contractor.** To apply any material or combination of materials to surfaces described in the C-22 classification above, to provide a tinting shield from natural or artificial light;
- C-23 **Gunite contractor.** To pneumatically apply aggregates, cement, and water as gunite and finish the surface; including the setting of ground wires and pencil rods to establish the finished surface planes;
- C-24 **Building moving and wrecking contractor.** To move, post, or demolish structures including removal of debris and to dismantle or free specific portions of a structure in order that it can be raised and moved. Posting shall be limited to placing a structure in position on a property only, and renovations shall not be included;
- C-25 **Institutional and commercial equipment contractor.** To install industrial instrumentation including, but not limited to, pneumatic instrumentation systems, laboratory equipment, lockers, and food services equipment, folding and sliding partitions, folding bleachers, stationary metal partitions, raised floor systems, prefabricated systems using metal chutes, incinerator, stages and rigging of stage curtains and racks, jail and prison equipment, and related locking devices or control

systems, and other equipment and materials as are by custom and usage accepted in the construction industry as institutional and commercial equipment work; and to install factory built stoves, fireplaces, and prefabricated steel chimneys;

- C-27 **Landscaping contractor.** To prepare plots of land for architectural horticulture and to provide tree trimming, decorative treatment and arrangement of gardens, lawns, shrubs, vines, bushes, trees, and other decorative vegetation; construct conservatories, hot and green houses, drainage and sprinkler systems, all types of rockscaping and ornamental pools, fountains, ornamental walls, fences, and walks; and placement of hydro mulching for ground cover and for containment of soil. This also includes the installation of irrigation control or decorative lamp electrical wiring associated with the above that will carry 24 volts or less;
- C-27a **Hydro mulching contractor.** To place hydro mulch material as a bed for ground cover and for containment of soil;
- C-27b **Tree trimming and removal contractor.** To prune, trim, and remove trees, including stumps, and restore ground to condition similar to adjacent area; provided that this does not include the relocation and planting of field grown trees;
- C-31 **Masonry contractor.** To lay brick and other baked clay products, rough or cast stone, marble, granite, or any decorative plaster, cut and dressed stone, artificial stone and brick veneer, CMU, and structural glass, brick or block, laid with or without mortar or adhesives, manufactured precast concrete facing and back-up panels and brick or block panel; installation of fire clay products and refractories; installation of concrete fencing; installation of grout, rubble work, caulking, tuckpointing, sandblasting, mortar, washing, and cleaning related to masonry construction; to place and finish cement concrete; to drill, saw, and core concrete; and to do epoxy injection in concrete for structural purposes;
- C-31a **Cement concrete contractor.** To mix aggregates, cement, and water in order to make acceptable concrete; to place and finish

concrete including the setting of screeds and forms; to do tuckpointing and caulking of concrete block and pre-cast stone; to caulk metal to concrete and masonry; to cut, drill, saw, core, and pressure grout concrete; to do sandblasting, waterblasting, cleaning, sealing, and epoxy injection of concrete; and to perform spall repair;

- C-31b **Stone masonry contractor.** To construct ornamental walls, veneer walls, and structural walls or columns from marble, granite, or any decorative plaster, stone, artificial stone, rough or cast stone, or veneer stone; to lay stone in a manner that an acceptable paved surface is obtained; and to construct stone retaining walls with or without mortar, in conformance with building code requirements;
- C-31c **Refractory contractor.** To set or install high temperature fire clay and refractory products or equipment;
- C-31d **Tuckpointing and caulking contractor.** To do tuckpointing, caulking, and sealing of concrete block and pre-cast stone; to caulk metal to concrete and masonry; and to perform spall repair;
- C-31e **Concrete cutting, drilling, sawing, coring, and pressure grouting contractor.** To cut, drill, saw, core, and pressure grout concrete;
- C-32 **Ornamental, guardrail, and fencing contractor.** Installation of all types of structural and nonstructural units for residential, commercial, and industrial construction, both interior and exterior including, but not limited to, folding gates, guardrails, handrails, stairs, fencing and gates, window shutters and grills, roll up shades, non-electrical signs, room dividers and shields, accessories, railings, and traffic safety devices;
- C-32a **Wood and vinyl fencing contractor.** To install, maintain, or repair wood or vinyl fencing;
- C-33 **Painting and decorating contractor.** To apply materials common to the painting and decorating industry for protective and decorative purposes, including highway and parking striping

and painting of playcourt lines, by the use of, but not limited to, emulsions, waxes, water repellants, epoxes, polyesters, urethane, liquid-glass, fibrous, cement, and rubber base coatings. Surface preparations of all types, caulking, sandblasting, waterblasting, power cleaning, or steam cleaning preparatory to painting. Installation of wall surface covering, decorative texturing, taping, and finishing of drywall. This also includes the application of sealants in connection with the above;

- C-33a **Wall coverings contractor.** To prepare surfaces and install wall covering materials such as vinyls, wallpapers, wood veneer, cloth fabric, and fibrous type coverings;
- C-33b **Taping contractor.** To fill and tape joints and indentations in wallboard so that a smooth surface is obtained to serve as a base for future finishes;
- C-33c **Surface treatment contractor.** To treat surfaces by using, but not limited to, sandblasting, waterblasting, power cleaning, or steam cleaning. This also includes the application of sealants in connection with the above;
- C-34 **Soil stabilization contractor.** To stabilize earth through the use of cement and/or chemical pressure grouting;
- C-35 **Pile driving, pile and caisson drilling, and foundation contractor.** To drill holes for pilings and caissons and to drive piles and set caissons including cutting piles and capping same. To compact earth for foundations by vibrafloater or similar systems;
- C-36 **Plastering contractor.** To apply gypsum plaster, cement, and acoustical plaster or any combination of materials common to the plastering industry to any surface which offers either a mechanical or suction type bond by spray or trowel; to apply lath or any other material that will provide a bond for the plaster including spray on, multipurpose, acoustic, insulation, and fire retardant systems; and to apply cementitious fire proofing systems;

- C-36a **Lathing contractor.** To apply wood and metal lath, or any other materials which provide a key or suction base for the support of plaster coatings; including the installation of metal framing for the support of lath;
- C-37 **Plumbing contractor.** To install, repair, or alter complete plumbing systems which shall include supply water piping systems, hot water piping systems which includes, but is not limited to, heat pump water heaters, and hot water supply boilers with a heat input of 200,000 BTU/h or less, waste water piping systems, fuel gas piping systems, waste water treatment systems, and other fluid piping systems; the equipment, backflow prevention assemblies, instrumentation, non-electric controls, and the fixture for these systems and the venting for waste water piping systems and fuel gas piping systems; for any purpose in connection with the use and occupancy of buildings, structures, works, and premises where people or animals live, work, and assemble; including piping for vacuum, air, and medical gas systems, spas and swimming pools, lawn sprinkler systems, irrigation systems, sewer lines and related sewage disposal work performed within property lines, fire protection sprinkler systems when supervised by licensed mechanical engineers or licensed fire protection contractors, and solar hot water heating systems, and the trenching, backfilling, patching, and surface restoration in connection therewith;
- C-37a **Sewer and drain line contractor.** To install sewer line from house to city sewer with connections; and to install septic tanks, package sewage treatment plants, and related work, within property lines;
- C-37b **Irrigation and lawn sprinkler systems contractor.** To install all piping and fittings, pressure regulators, backflow prevention devices, and irrigation control electrical wiring that will carry twenty-four volts or less, as required to provide irrigation systems for, but not limited to lawns, parks, playgrounds, highway right of ways, golf courses, and school facilities; including installation of automatic or manual controls in relation to an irrigation system;

- C-37c **Vacuum and air systems contractor.** To install tubing for air systems, pneumatic conveyor systems, and central vacuum systems for conveying material;
- C-37d **Water chlorination and sanitation contractor.** To chlorinate or sanitize water or water lines; repair water lines and additions to water lines; and check bacterial count in the water or water lines;
- C-37e **Treatment and pumping facilities contractor.** To install, assemble, alter, repair and maintain the equipment and piping systems in connection with wastewater treatment, water distribution, and water pumping facilities;
- C-37f **Fuel dispensing contractor.** To install, remove, and repair gas tanks, hazardous waste storage tanks, pumps, hoists, or other related equipment for facilities such as, but not limited to, service stations;
- C-38 **Post tensioning contractor.** To apply compression to concrete structures or various components by the use of steel bars or wires; and to bring bars or wires to proper tension after the structures or components are built or placed;
- C-40 **Refrigeration contractor.** To assemble and install devices, machinery, and units, including temperature insulation units, ducts, blowers, registers, humidity, and thermostatic controls for the control of air temperature below fifty degrees Fahrenheit in refrigerators, refrigerator rooms, and insulated refrigerator spaces; and to construct walk-in refrigerator boxes;
- C-40a **Prefabricated refrigerator panels contractor.** To install prefabricated refrigerator panels;
- C-41 **Reinforcing steel contractor.** To fabricate, place and tie steel reinforcing bars (rods), of any profile, perimeter, or cross-section, that are or may be used to reinforce concrete buildings and structures;

- C-42 **Roofing contractor.** To install roofing to an acceptable surface and provide a weather tight covering using metal; composition and cementitious shingles; wood shingles and shakes; concrete, clay, and other types of tile; built-up, modified bitumen, single ply, and fluid type systems; and other roofing materials including spray urethane foam, asphalt, and liquid (cutback) asphalt. To apply protective or reflective roofing, or both. To apply deck coatings and top coatings. To also install roof flashing in connection with all of the above;
- C-42a **Aluminum and other metal shingles contractor.** To install aluminum and other types of metal shingles so that an acceptable watertight surface is obtained;
- C-42b **Wood shingles and wood shakes contractor.** To install wood shingles and shakes; including all flashing materials to form a watertight surface, staining in conjunction with shingle and shake application, and application of water repellent materials;
- C-42c **Concrete and clay tile contractor.** To lay concrete and clay tile including any underlay, purlins, or nailer strips in conjunction therewith to form a watertight surface;
- C-42e **Urethane foam contractor.** To prepare roof surface and apply urethane foam and top coating in connection therewith to form a watertight roof surface;
- C-42g **Roof coatings contractor.** Application of roof coatings for waterproofing and reflective purposes; including any surface preparation necessary for these applications;
- C-43 **Sewer, sewage disposal, drain, and pipe laying contractor.** To construct concrete and masonry sewers, packaged sewer disposal plants, sewage lift stations, septic tanks, and appurtenances thereto; to lay all types of piping for storm drains, water, and gas lines, irrigation and sewers, manholes in connection with the above work; and repairing and reconditioning of the pipelines, including the excavation, grading, trenching, backfilling, paving, and surfacing in connection therewith;

- C-43a **Reconditioning and repairing pipeline contractor.** To repair or recondition water and sewer lines manually or by remote control in conformity with county sewer or with water supply departments specifications;
- C-44 **Sheet metal contractor.** To fabricate, assemble and install cornices, flashings, gutters, downspouts, kitchen and laboratory equipment, duct work, metal flues, and free standing fireplaces and chimneys; and to install pre-manufactured sheet metal products such as metal chutes, lockers, shelving, louvres, nonbearing metal partitions, metal siding and roofing, and other sheet metal items common to the trade, and facsimile items such as plastic skylights, fiberglass ducts and fittings, including installation of metal awnings, canopies, patio covers, and seamless metal gutters;
- C-44a **Gutters contractor.** To fabricate and install gutters and downspouts;
- C-44b **Awnings and patio cover contractor.** To fabricate and install awnings and patio covers.
- C-48 **Structural steel contractor.** To fabricate and erect structural steel shapes, bars, rods, and plates of any profile, perimeter, or cross-section, that are or may be used as structural members for buildings and structures; including riveting, bolting, welding, and rigging in connection therewith. Erection of metal buildings, passenger loading bridges, metal roofing and metal siding installed on steel framing, mechanical, overhead, sliding and roll-up steel doors, and grills and bars over windows;
- C-48a **Steel door contractor.** To install and repair mechanical, overhead, sliding and roll-up steel doors;
- C-49 **Swimming pool contractor.** To construct and repair concrete, gunite, metal, or plastic type pools, whirlpool baths, hot tubs, jacuzzies, pool decks, and walkways; including, but not limited to, installation and repair of water and gas service lines, from closest point of service to pool equipment, pool piping, fittings, back flow prevention devices, pumps, heaters, chlorine

- dispensers, pool plastering and other types of interior finishing and sealing, ceramic tile, coping, swimming pool accessories and safety devices, fences for protective purposes if in original contract and excavation and grading in connection with swimming pool construction;
- C-49a **Swimming pool service contractor.** Repair and replacement of pumps, filters, heaters and related circulation piping for swimming pools, whirlpool baths, and jacuzzis; acid washing or repainting of swimming pool, whirlpool bath, and jacuzzi interiors; and repairs to pool tile, coping stones, plaster, and decks;
- C-49b **Hot tub and pool contractor.** To install hot tubs, saunas, and vinyl or fabric lined pools to include water catchment, storage, and transmission;
- C-51 **Tile contractor.** To prepare the base upon which ceramic, mosaic, granite, terrazzo, and other tile work, including all pseudo tile and marble or cultured marble products, will adhere by suction, fasteners, or by adhesives; and to install these products;
- C-51a **Cultured marble contractor.** To prepare the base and install cultured marble or synthetic marble products;
- C-51b **Terrazzo contractor.** To place and finish terrazzo and liquid membrane with terrazzo chips;
- C-52 **Ventilating and air conditioning contractor.** To fabricate, assemble, and install warm-air heating and air cooling systems including heating and cooling solar systems, complete ventilating systems and complete air conditioning systems including, but not limited to, piping, controls (other than electrical), instrumentation, building automation, energy management, and trenching, backfilling, patching, and surface restoration in connection with the installation of the air conditioning systems; and including installation of thermal and acoustical insulation necessary to maintain heat, or sound, or both, within the systems above. This also includes the installation of heat pumps related to the air conditioning system;

- C-53 **Miscellaneous retail products contractor.** To enter into contracts to install miscellaneous retail products sold by the licensee; provided that the installation work shall be subcontracted to and physically performed by appropriately licensed contractors. The licensee shall operate as a retailer at a fixed location of 10,000 square feet or more; file a \$50,000 surety bond with the board; provide in-house financing; inform consumers that they do not physically perform the installation work and state that in all advertising; and be primarily responsible and liable for the actions of the other contractors performing the installation work.
- C-54 **Interior design contractor.** To enter into contracts to provide interior design services and perform the renovation work; provided that the renovation work shall be subcontracted to and physically performed by appropriately licensed contractors. The licensee shall inform consumers that they do not physically perform the renovation work and state that in all advertising; and be primarily responsible and liable for the actions of the other contractors performing the renovation work.
- C-55 **Waterproofing contractor.** To apply felt, glass, asphaltum, epoxy, pitch, silicone, elastomeric coatings, sheet membranes or any other materials or combination of materials to surfaces to prevent water and water vapor from penetrating and passing the materials. Work shall include, but not be limited to, waterproofing exterior walls and between slabs, both above and below grade, planter boxes, tank linings and application of tank coatings, and application to parking decks, play courts, and walking decks to form a watertight non-skid surface, but not to include the work of the C-42 roofing contractor. This also includes surface preparations of all types, caulking, sandblasting, waterblasting, power cleaning, or steam cleaning preparatory to waterproofing;
- C-56 **Welding contractor.** On-site job layout, cut, assemble and weld the metal products including, but not limited to, pipe lines, tanks, pressure vessels, guard rails, and fire escapes, by welding

techniques using carbon arc, metal arc, submerged arc, flux core, resistance, and oxyacetylene processes;

- C-57 **Well contractor.** To bore, drill, excavate, case, cement, clean, and repair water wells; and to install injection wells, water well pumps and pump controls, concrete pump base and waterline to adjacent storage tank;
- C-57a **Pumps installation contractor.** To install pumps and related equipment including controls, to wells;
- C-57b **Injection well contractor.** To install injection wells;
- C-60 **Solar power systems contractor.** To assemble and install photovoltaic panels, batteries, controls, and related low voltage D.C. wiring;
- C-61 **Solar energy systems contractor.** To assemble and install solar hot water systems in residential and commercial buildings and swimming pools, provided that this shall not include the installation of heat pumps or water heaters. To install solar heating and cooling systems in residential, commercial, and industrial buildings;
- C-61a **Solar hot water systems contractor.** To assemble and install collectors, storage vessels, controls, pumps, and piping in connection therewith;
- C-61b **Solar heating and cooling systems contractor.** To install solar heating and cooling systems; provided that all specialty work requiring a license is subcontracted to contractors licensed to perform that work;
- C-62 **Pole and line contractor.** To dress, ground, anchor, and erect poles that will carry high voltage (600 volts phase to phase or more) electrical wires; and to connect and string electrical wires, fixtures, and apparatus to and between the poles, including installation of pole-mounted transformers. Work shall include street and highway lighting and traffic signal systems, and the work of the C-63 high voltage electrical contractor;

- C-62a **Pole Contractor.** To strengthen poles by injecting into or encasing poles with fiberglass, polyurethane, epoxy, or similar materials; or to reinforce poles using steel trusses or braces.
- C-63 **High voltage electrical contractor.** To place, install, erect, or connect any electrical wires, fixtures, appliances, apparatus, conduits, raceways, and to do trenching, backfilling, patching, and surface restoration in connection with the installation of conduits and lines which transmit, transform, or utilize electrical energy of more than 600 volts phase to phase;
- C-68 **Classified specialist.** The performance of construction work requiring unique or special skill which is not related to or does not completely fall within any of the listed classifications; provided that the new classification is in the best interest of the public as determined by the board, and the specialist meets the standards and requirements set by law for licensing."

Regulated Industries Complaints Office

235 S. Beretania Street, Ninth Floor

Honolulu, Hawaii 96813

cca.hawaii.gov/rico

TOP 10 TIPS FOR CONSTRUCTION PROJECTS

In the planning of work, during the progress of work, and after the completion of work on your home – from the smallest paint job to a major remodeling or the installation of a pool – make sure that you:

1. **Hire a licensed contractor.** Check licensure and prior complaints history by calling 587-4272 or online at cca.hawaii.gov/businesscheck. Confirm the contractor is licensed, bonded and has the necessary insurance coverage to operate.
2. **Know how much you can spend.** Fix your budget in advance and keep some in reserve to pay for changes or unanticipated costs.
3. **Shop around.** Get at least 3 bids or estimates. Make sure the bids are based on the same work and the same materials. If bid amounts vary significantly, ask why.
4. **Ask for references.** Call trade organizations or ask friends or relatives for referrals. Ask to see other projects the contractor has completed and to meet other clients.
5. **Insist on a written contract.** Among other things, a written contract should include the contractor's license number, total cost, start and stop date, the work to be performed, and the materials to be used. Get any promises, guarantees or warranties in writing!
6. **Make sure your project is in compliance with city and county codes.** If building, electrical or plumbing permits are required, ask the contractor who will be responsible for the permitting process. Know the risks and responsibilities of being an "owner-builder."
7. **Monitor the job and keep good records.** Keep a file with the contract, cancelled checks, and correspondence. Make sure any change orders are in writing. Don't forget blueprints, plans, and specifications.
8. **Pay as you go.** Set a payment schedule that follows the amount of work completed and avoid paying all of the money up front. Get receipts for any payments made.
9. **Know who your subcontractors are and avoid liens.** Get lien releases from subcontractors and material suppliers after the work is completed and upon their receipt of payment. Get partial lien releases for partial payments made and a final lien release for final payments made. Publish a notice of completion in the newspaper once the job is done.
10. **Do a thorough "walk-through" and take care of any "punch list" items immediately.**

If my project is only for minor repairs, can I hire a handyman or handyperson? If the total cost of your project, including labor and materials is less than \$1,500, and doesn't require a building permit, you can hire a handyman. "Handymen" usually perform minor repairs and projects that are typically described as "odd jobs" or "fix-up tasks." Without a contractor's license, handymen who do projects that are (1) over \$1,500 or (2) require a building, electrical or plumbing permit, are engaged in unlicensed contracting. And remember, the so called "handyman exemption" *does not apply to electrical or plumbing work!*

Other helpful hints:

- ✓ Consider purchasing performance, material and completion bonds through the contractor.
- ✓ Notify your homeowner's insurance company of the planned construction and remember, plans may need to be approved.
- ✓ Make sure you see and understand all plans/blueprints before approving them.
- ✓ Check that the materials used are the materials specified in the contract.
- ✓ Periodically check on the progress of the work and/or keep a construction journal.
- ✓ Put any changes to the scope of the work or the materials used in writing.
- ✓ If there are problems with the construction, notify the contractor in writing and provide the contractor an opportunity to fix the problems.

There are lots of good reasons why a consumer should consider hiring a licensed contractor, including:

- ✓ **Training and experience.** In order to qualify for a contractor's license, applicants must demonstrate they have the necessary training and experience to get a contractor's license. The Contractors License Board also requires applicants demonstrate "a good reputation for honesty, truthfulness, financial integrity and fair dealing," submit tax clearances, proof of insurance, and other required qualifications.
- ✓ **Insurance.** Insurance is important because a lot can happen on a construction project - accidents, falling objects - not to mention fire, vandalism, malicious mischief, and theft of building items. Licensed contractors are required to carry liability insurance and are responsible if a worker is injured on a jobsite. This protects you as a homeowner from putting your property at risk if anything is damaged on your project or if anyone is injured.
- ✓ **Obtain required permits.** Licensed contractors are able to apply for and obtain building permits. If an unlicensed contractor is asking you to apply for an owner-builder permit, it may be because they can't get a building permit for you. For information about building, electrical, and plumbing permits, contact the planning and permitting department for your county.
- ✓ **Contractors Recovery Fund.** The Contractors Recovery Fund helps to compensate homeowners if something goes wrong with their project. The Contractor's Recovery Fund is only available to consumers who have hired a licensed general contractor. *(For information about the Contractor's Recovery Fund, or if you have questions about what kind of a contractor you may want to hire, call the Contractor's License Board at [808] 586-2700.)*

Each year, RICO receives hundreds of tips and complaints about unlicensed contractors. The complaints range from construction that has been poorly done, to money being taken and no work being done at all. Unlicensed contractors may go door-to-door claiming they "just finished a job down the street" or "have materials left over from another job." Unlicensed contractors may even use a fake license number or a license number that belongs to someone else. So, remember to check license information with our office. You may also want to ask to see a picture I.D. so you know exactly who you're dealing with. And, most importantly, remember...never pay all of the money up front. Your home is the single biggest investment you'll probably ever make, so take your time, do your homework, and consider hiring a licensed contractor. To check licensing status or for information about hiring a licensed professional, call the Consumer Resource Center (CRC) at 587-4272 or visit the State's website at: cca.hawaii.gov/rico.

DCCA

HAWAII

Contractors Licensing Board
Licensed Contractor PSA Advertising Campaign

PSA Advertising Campaign for CLB: Overview/Cost Breakdown

DCCA Communications proposes to support the Contractors Licensing Board by executing a 1-year \$100,000 advertising campaign aimed at maximizing the public reach of its PSA messaging.

The proposed budget allocation is as follows:

\$25,000 – Maui-Targeted Campaign

- \$20,000 will be allocated to Spectrum (Cable and Streaming).
- Approximately \$4,000 (remaining post-tax) will be dedicated to digital advertising (e.g., Facebook/Meta and YouTube), both of which offer location-based targeting capabilities.

\$25,000 – Statewide Broadcast Campaign (via HAB)

- This includes airtime on major network broadcast stations such as ABC, NBC, CBS, and FOX. Local affiliates include KHON2 and KITV.

\$50,000 – Statewide Cable/Streaming and Digital Campaign

- \$40,000 will be directed to Spectrum (Cable and Streaming).
- Around \$8,000 (remaining post-tax) will be used for digital advertising through geotargeted platforms like Facebook/Meta and YouTube.

The overall goal of the \$100,000 budget is to ensure maximized coverage across all essential communication channels, including broadcast, cable, streaming, and digital.

Maui Targeted Campaign

Comms is proposing to allocate \$25,000 for a Maui Targeted campaign via Spectrum and digital.

Spectrum (cable and streaming) and digital advertising (e.g., Facebook/Meta and YouTube) both offer location-based targeting capabilities.

Estimated Impressions for this campaign (The amount of times the PSA will be displayed):

| Maui Campaign June 2025 – May 2026 | | | | |
|-------------------------------------|---|-------------------------|-------------------|--|
| | Details | Gross Investment | Total Impressions | |
| Linear TV (June 2025 – May 2026) | UH Sports Maui Zone Live & Retail games | \$12,000 | 374,982 | |
| Streaming TV (June – Dec 2025) | Homeowners | \$8,000 | 250,000 | |
| Linear TV (June – Sept 2025) | 400 Added value spots A&E, CNN, ESPN2, ESPN, Food Network, FX, Golf, HGTV, MSNBC, National Geographic, USA | \$4,000 value | 64,800 | |
| TOTAL | | \$20,000 Gross + tax | 689,782 | |

**With this campaign, Spectrum is offering an additional 400 spots, valued at \$4000 (shown in red).*

Hawaii Association of Broadcasters

Comms is proposing to allocate \$25,000 for a statewide broadcast campaign via HAB.

The Hawaii Association of Broadcasters (HAB) is the broadcast trade association in Hawaii and is affiliated with The National Association of Broadcasters (NAB).

The Federal Communications Commission (FCC) authorizes a program allowing state broadcast trade associations to fundraise through Public Education Awareness sponsorship campaigns. The sponsorships, known as PEP (formerly referred to as NCSA) are available to non-profits, other trade associations, state and federal agencies.

In Hawaii, the HAB airs its PEP sponsor campaigns on a minimum of 49 radio and 6 televisions stations statewide with the potential to reach all radio and television households. HAB guarantees the sponsor a minimum 3 to 1 rate of return on their investment.

FEBRUARY – APRIL 2024 (\$15,000)

*HAB also furnishes individual airtime affidavits following campaigns.

Statewide Campaign & (Spectrum & Digital)

Comms is proposing to allocate \$50,000 for a statewide Targeted campaign via Spectrum and digital.

Spectrum includes showings on cable and streaming and digital advertising will cover Facebook, Instagram and YouTube.

Estimated Impressions for this campaign (The amount of times the PSA will be displayed):

| Statewide Campaign June 2025 – May 2026 | | | |
|---|--|---------------------------------|----------------------|
| | Details | Gross Investment | Total Impressions |
| Linear TV (June 2025 – May 2026) | High School Homecoming Package | | |
| Streaming TV (June – Sep 2025) | | \$31,877 | 2,618,854 |
| | Amazon Prime, Fox News Channel, MSNBC, CNN, ESPN, Hallmark, Food Network, HGTV, TNT, TBS | \$8,123 | 232,085 |
| | 350 spots | | |
| Linear TV (June – Sept 2025) | A&E, CNN, ESPN2, ESPN, Food Network, FX, Golf, HGTV, MSNBC, National Geographic, USA New City Nissan Goodwill Softball Classic and Cal Ripken 12U & 14U | \$8,000 value | 438,955 |
| TOTAL | | \$40,000 Gross + tax | 3,289,894 Imp |

**With this campaign, Spectrum is offering an additional 350 spots, along with sports advertising (Softball - June, Baseball - August), valued at \$8000 (shown in red).*

Statewide Campaign (Spectrum & Digital)

Comms is proposing to allocate \$50,000 for a statewide Targeted campaign via Spectrum and digital.

Leftover funds from the Spectrum campaigns (both Maui and Statewide) will be utilized for digital media advertising.

DCCA Past Campaign Stats:

Additional Notes

Further details on HAB and Spectrum are provided in the packets shared.

In summary, Comms aims to cover all essential communication channels (Broadcast, Cable, Streaming, Digital) with a budget that ensures a substantial reach, both statewide and targeted on Maui.

HAWAII

Contractors Licensing Board
Licensed Contractor PSA Advertising Campaign

Mahalo!

Hawaii Association of Broadcasters, Inc.

The Hawaii Association of Broadcasters Public Education Program (PEP)

The Hawaii Association of Broadcasters (HAB) is the broadcast trade association in Hawaii and is affiliated with The National Association of Broadcasters (NAB). There are 50 state broadcasters' associations plus one in Puerto Rico.

In 1936, the Federal Communications Commission (FCC) authorized a program allowing state broadcast trade associations to fundraise through Public Education Awareness sponsorship campaigns. The sponsorships, known as PEP (formerly referred to as NCSA) are available to non-profits, other trade associations, state and federal agencies.

Details of the PEP Sponsorship:

- Campaigns are contracted on all participating radio and television stations
- If a scheduled announcement is missed, it may be made good if needed to make ratio guarantee
- An affidavit of performance (invoice) is generated by each station
- Each station assigns a prevailing rate for each announcement that airs
- HAB collects every contract and airtime affidavit
- HAB tallies each station's airtime affidavit
- Every quarter, HAB sends a comprehensive report to the sponsor with monthly subtotals for radio and television and a grand total for the quarter outlining the value of the campaign. This includes a summary cover sheet (in all cases) and all station affidavits as documentation (if requested by sponsor)
- All campaigns are for 30-second announcements

How the PEP program differs from a PSA campaign:

- All announcements are contracted by stations at the request of HAB
- If an announcement is missed, it will be made good if necessary to meet ratio guarantee
- Sponsors receive affidavits or "proof" of performance
- There is a guaranteed delivery on investment

In Hawaii, the HAB airs its PEP sponsor campaigns on a minimum of 49 radio and 6 televisions stations statewide with the potential to reach all radio and television households. HAB guarantees the sponsor a minimum 3 to 1 rate of return on their investment.

For example if a sponsor's investment is \$50,000, they are guaranteed a minimum of \$150,000 in value on the statewide radio and television campaign.

A partial list of past and present HAB PEP Sponsors:

- Hawaii Department of Transportation
- Hawaii Department of Health
- Hawaii Army National Guard
- Hawaii Coast Guard
- Honolulu Police Community Foundation
- American Cancer Society Pacific Region
- Hawaii Rotary Club District 5000
- Aloha United Way
- Hawaii Office of Aging
- Hawaii Community Foundation
- Hawaii YMCA
- Hawaii Bankers Association
- Hawaii Dept of Land and Natural Resources
- Hawaii Dept of Defense Emergency Management Agency
- Hawaii Dept of Child and Family Services

Note: If an organization has spent money on Hawaii broadcast television or radio in the past 13 months, that organization is not eligible to participate.

HAB as an organization has a strong focus on education and primarily uses sponsorship revenue in three ways:

- **HAB educates future broadcasters by awarding between \$40,000-60,000 in college scholarships each year to both undergraduate and graduate school candidates**
- **HAB educates member station employees by holding an annual State Broadcast Convention and hosting a variety of broadcast related sessions and seminars throughout the year. Attendees are employees of member stations for the purpose of professional development and career advancement and the betterment of the Hawaii Broadcast Industry**
- **HAB educates broadcasters by sending board members and member station employees to mainland conferences and conventions throughout the year. Attendees report to the HAB board and the information learned is translated back to member stations, keeping stations and the HAB current with mainland trends and the latest in industry-specific training**
- **HAB subsidizes programs to assist member broadcast stations with FCC license requirement compliance including but not limited to EEO broad outreach for hiring new employees and the Alternate Broadcast Inspection program to help maintain a proper public file, studio and tower regulations.**

Please contact HAB Executive Director, Jamie Hartnett, to discuss the HAB PEP program in more detail.

...

Your home is the single biggest investment you'll probably ever make, so take your time, do your homework, and consider hiring a licensed contractor.

4 REASONS TO HIRE A LICENSED CONTRACTOR

- 01 Training & Experience:** Licensed contractors bring expertise - they've earned that license for a reason!
- 02 Insurance:** With worker's compensation & liability insurance, licensed contractors prioritize safety & protect your investment.
- 03 Permits:** Need permits? Licensed contractors can obtain and sign those permits hassle-free.
- 04 Contractors Recovery Fund:** Hiring licensed means access to the Contractor's Recovery Fund, offering added peace of mind.

February 13, 2024 –Reasons To Hire A Licensed Contractor Social Ad

As Maui and Hawaii rebuilds following the wildfire, consumers should be aware of the dangers of unlicensed contracting and are encouraged to always hire licensed professionals for construction and repairs.

Find additional resources and a list of licensed contractors at licensedcontractor.hawaii.gov.

REASONS TO HIRE A LICENSED CONTRACTOR

Reason #1

A contractor's license is required by law for any project exceeding \$1,500 in total labor and materials, and for any project, regardless of cost, that requires a building, electrical or plumbing permit. Unlicensed contracting is illegal and a crime and can be punished by fines, injunctions, and imprisonment.

Reason #2

Hiring a licensed contractor ensures proper training, experience, background checks, and compliance with safety regulations.

Reason #3

Licensed contractors carry worker's compensation and liability insurance, providing protection for homeowners against injuries or damages during the project.

Reason #4

Licensed contractors can obtain and sign building permits, and in case of issues, homeowners may access the Contractor's Recovery Fund if a licensed contractor was hired.

To view a comprehensive list of licensed contractors, please visit:

September 1, 2024 – Ensure Contractor Is Licensed

Caption: Knowledge is power, especially when it comes to hiring contractors. Use these two steps to safeguard your investment.

TWO STEPS TO ENSURE YOUR CONTRACTOR IS LICENSED

1. Get the contractor's name and license number.
2. Head over to **businesscheck.hawaii.gov** OR give a call to the Consumer Resource Center at **808-587-4272**.

PROTECT YOUR INVESTMENT · VERIFY THAT LICENSE TODAY!

DCCA HAWAII  licensedcontractor.hawaii.gov

Talking Points: "Hire a Licensed Contractor" Campaign

Why is hiring a licensed professional and contractor important?

Hiring a licensed professional is important because in order to qualify for a contractor's license, applicants must demonstrate they have the necessary training and experience to be licensed. Applicants are also required to prove their reputation for conducting fair business practices and having financial integrity. This includes submitting tax clearances, proof of insurance, and meeting other qualifications. In turn, this helps ensure that licensed professionals are fit to do the job they are contracted for.

As we've seen in situations like the rebuilding efforts in Lahaina and throughout Maui, homeowners—especially in vulnerable communities—can often be at risk of exploitation by unlicensed contractors seeking to take advantage of the circumstances. That's why contracting without a valid Hawaii contractor's license, or assisting unlicensed individuals in performing contracting work, is illegal. By hiring a licensed contractor, you are not only ensuring quality and professionalism, but it also protects you from legal liability and ensures that you have the right to take legal action if necessary.

What license is required in the state of Hawaii?

In Hawaii, a contractor's license is required for any home project that exceeds \$1,500 in combined material and labor costs, or for any project that requires a building, electrical, or plumbing permit. This ensures the safety and integrity of your home and property.

How can I verify if a company or person is licensed?

To verify if a company or individual is licensed, you can visit the DCCA BusinessCheck website. BusinessCheck is an online tool that allows you to research licensed professionals, check their license status, review any complaint histories, and find out when a business was established. Simply go to businesscheck.hawaii.gov to confirm a professional's qualifications, compliance with regulations, and accountability to the appropriate governing authority.

What can homeowners do to prevent being taken advantage of by contractors?

Homeowners can protect themselves from being taken advantage of by contractors by following a few key steps. First, always hire a licensed contractor and insist on a detailed written contract that includes the contractor's license number, project cost, start and end dates, scope of work, and materials to be used, along with any warranties or guarantees in writing. Ensure the project complies with local building codes and confirm who will be responsible for obtaining necessary permits. Understand the risks if acting as an "owner-builder" and keep detailed records of all contracts, payments, and correspondence. Set a payment schedule based on completed work, avoid paying upfront, and always get receipts. Know your subcontractors and protect yourself from potential liens by obtaining lien releases from them and material suppliers. Once the project is complete, do a thorough walk-through to address any issues before final payment.

However, we understand that it's hard to know what you don't know, and it can be tempting to rush into hiring a contractor when repairs are urgent. That's why DCCA is leading an educational campaign aimed at raising public awareness about the importance of hiring licensed professionals. You may have seen our new PSAs or, for those in Maui County, our licensed contractor safety yard signs.

What do I do if someone is conducting unlicensed activities?

We ask that everyone does their part in looking out for the community by reporting unlicensed contracting at our website: <https://cca.hawaii.gov/rico/file> or by calling our consumer resource center at (808)587-4272. This can allow us to start an investigation against the relevant individual or business.
