March 19, 2025
Minutes:

Chairperson Chock asked if any members of the public would like to provide oral testimony on this agenda item. There were none.

Vice-Chair Wood stated the following amendment to the open session minutes, as follows:

On page 5, 4th paragraph, should read:

Vice-Chair Wood stated that her concern was where the animal control ~~[offers]~~ **officers** were getting the drugs and who was signing for the drugs. She further explained that whoever is prescribing the drug would need to oversee the administration.

Deleted language is bracketed and struck through. New language is bolded and underlined.

Dr. Thomson-Kerr stated the additional amendment, as follows:

On page 6, 3rd paragraph,

Dr. Thomson-Kerr noted that injectable euthanasia ~~could be [gabapentin and]~~ does not necessarily have to be a controlled substance. It could be potassium **chloride** or many other things.

On page 6, 9th paragraph:

Dr. ~~[Thomas]~~ **Thomson**-Kerr stated that if the method does not involve a controlled substance, veterinary supervision is not required. A suffering animal can be shot without veterinary supervision. She further stated that these questions have a lot of intricacies in terms of how each can be answered.

On page 7, 5th paragraph,

Dr. ~~[Thomas]~~ **Thomson**-Kerr wondered if there is a licensed veterinarian working under animal control. She stated if a licensed veterinarian **who holds a NEA or any DEA** is working or contracted with the animal control office, the pharmaceuticals are being obtained properly.

Deleted language is bracketed and struck through. New language is bolded and underlined.
