Department: Commerce and Consumer Affairs
 Prog ID(s): CCA-102
 Name of Fund: Compliance Resolution Fund - Cable Television
 Legal Authority Chapter 440G, HRS, Act 199, SLH 2010

Contact Name: Michael Wun
 Phone Number: 586-2830
 Fund type (MOF) Special Funds (B)
 Appropriation Account Number S-XX-302-R

Intended Purpose:

To promote responsive and reliable cable communications services for the people of Hawaii, by issuing cable franchises to qualified and suitable cable operators when it is in the public interest to do so; regulating cable television operators to ensure compliance with applicable State and Federal laws and franchise agreements; expand and administratively manage the statewide Institutional Network; and continue the availability of public, education and government cable access. Additional responsibilities due to Act 199 tasked CATV to implement activities to expand and deploy infrastructure to increase access to broadband.

Source of Revenues:

Franchise Fees (HAR 16-132) paid by cable tv operators.

Current Program Activities/Allowable Expenses:

- Issues and enforces cable television franchises for cable communications services. Conduct franchise renewal and transfer proceedings to ensure the capability of the cable television operators, and that customers are provided adequate and efficient cable television services.
- Promulgates and enforces rules and regulations governing the practices, procedures, quality and quantity of services.

- Plans and encourages the development of new, improved and more effective utilization of cable communications services, equipment, and facilities including the State's Institutional Network (INET), and public, educational, and government (PEG) access resources and facilities, which will enhance communications services available to Hawaii's citizens.

- Support and facilitate public and private efforts to increase affordable broadband access to unserved and underserved areas, including increasing the availability of publicly accessible WiFi hotspots at community gathering areas and facilities.

Variances:

Vvariances in revenues each year are due to changes in the gross revenues collected by cable operators in the State. For FY21 through FY23, the variance in revenues was due to DCCA's decision to decrease the annual fee assessed on cable operators until further order of the DCCA Director (Decision and Order No. 375; May 9, 2019); revenues in FY20 through FY23 represent basic interest. Variances in expenditures for FY21 through FY24 relate to: (1) planned management audits and utilization of consulting services (e.g., franchise renewals, PEG designations, federal FCC proceedings, etc.); and (2) increased broadband related support activities. FY 25 variance due to projected increase in costs due to inflation.

Cash balance lapse to general fund? (Yes / No) No.

Intended Purpose:

Franchise fees over the cap amount that is paid by Oceanic Time Warner Cable, LLC ("Oceanic") to Olelo are provided to DCCA for INET/Broadband purposes.

Source of Revenues:

Franchise fees (HAR 16-132) paid by cable tv operators.

Current Program Activities/Allowable Expenses:

Expenses related to expansion and upgrade of the Institutional Network ("INET"); and any other expenses/activities relating to broadband.

Variances:

Variance in revenues each year occurred due to changes in Spectrum's gross revenues, which are based on the number of customers and cable packages to which such customers subscribe. Revenues (aside from simple interest) for this account ceased since Spectrum is no longer required to hold funds for INET and broadband related purposes in the account, under Decision and Order No. 372, issued by the Department on March 23, 2018. In FY20, due to a review of Spectrum's calculations of franchise fees and true-up requirements, \$67,463 in revenues in addition to interest was added to the account, the \$13 in expenditures in FY20 are due to bank fees. For FY25, we anticipate procuring a case-management platform to manage requests from other government entities.

Name of Fund:	<u>CRF-PUC Spcl Fnd Allocation-Consumer Advocacy</u>	Fund type (MOF)	<u>Special Funds (B)</u>
Legal Authority	<u>Section 269-33, HRS</u>	Appropriation Account Number	<u>S-XX-303-R</u>

Intended Purpose:

To fund the operations of the Division of Consumer Advocacy.

Source of Revenues:

Public utility fees paid to the public utilities commission pursuant to HRS §269-30, and placed in the public utilities commission special fund. Pursuant to HRS §269-33, on a quarterly basis, an amount is allocated in accordance with legislative appropriations to the DCA and deposited in the compliance resolution fund.

Current Program Activities/Allowable Expenses:

To represent, advance and protect the interests of consumers of regulated utility and transportation services. The division is a party to every proceeding before the Hawaii Public Utilities Commission. The division participates in, among many other things, reviews of utility and transportation companies' requests to increase rates, service reliability investigations, energy utility integrated resource plans, capital improvement projects for utilities, and financing arrangements. In addition, the division strives to promote effective competition and consumer protection through contested cases and rule making proceedings regarding telecommunications and electric power infrastructure development.

Variances:

Revenue variance(s): Historically, revenue variances related to interest revenues varying due to variances in cash balances. In 2022, transfers from the PUC Special Fund were recorded as revenues .

Expenditure variance(s): Actual expenditures have varied from estimates for various reasons, including, but not limited to: 1) vacancies that caused actual payroll expenditures to be lower than budgeted; and 2) the activity in various dockets not progressing as expected, which caused anticipated consulting (outside services) charges to vary, and most recently, 3) a substantial increase in the number of rate cases filed by utilities, and 4) wildfire related matters. For instance, the decreases in FY 2021-2023 were primarily related to various dockets either not progressing or not requiring extensive consultant assistance. Vacancies also contributed to the lower expenditures. FY 24 increase in expenditures due to Maui Wildfire response. For FY 2025 and beyond, increased expenditures are anticipated. The division has been successful in filling several vacancies. The division also continues to anticipate greater work levels related to significant increase in the number of rate cases, PBR proceedings, and highly specialized regulatory matters, such as intragovernmental wheeling, and regulatory matters related to the wildfires. The division typically has zero to two rate cases within a given year. The division needs to encumber a significant amount of funding to procure outside services to assist in providing the expertise and resources needed to review nine rate cases, undertake the comprehensive review of performance based regulation for Hawaiian Electric and its subsidiaries, review complex regulatory issues, such as intragovernmental wheeling, and analyze wildfire-related filings such as hazard mitigation plans and wildfire mitigation plans for the electric utilities of Hawaiian Electric and KIUC.

Intended Purpose:

To allow the Commissioner to appoint examiners to examine the affairs of financial institutions, escrow depositories, trust companies, money transmitters, mortgage loan originators, mortgage loan originator companies, mortgage servicers and small dollar consumer installment lenders; to appoint any necessary administrative support personnel; and to pay for any expenses incurred during examinations or necessary for the education and training of personnel and other expenses related to examinations and administrative costs as well as to support the entire program of the Division of Financial Institutions (DFI).

Source of Revenues:

Transfer of \$2 million from taxes paid by banks and other financial corporations (HRS 241-7); and application, examination, licensing, and other fees and fines paid by financial institutions, escrow depositories, trust companies, money transmitters, mortgage loan originators, mortgage loan originator companies, mortgage servicers, and small dollar consumer lenders.

Current Program Activities/Allowable Expenses:

Ensures the safety and soundness of state-chartered financial institutions by fairly administering applicable statutes and rules through a program of supervision and regulation through chartering or licensure, examination, application review, off-site monitoring, investigation, and complaint handling and is also responsible for the licensing and supervision of escrow depositories, trust companies, money transmitters, mortgage loan originators, mortgage loan originator companies, mortgage servicers, and small dollar consumer lending.

Variances:

FY 21 revenue variance due to increase in mortgage loan originator activity. FY 22 variance due to sustained mortgage loan activity. The decline in revenue from FY22- FY23 is primarily to due rising interest rates which have resulted in significant dampening of the mortgage industry which affects mortgage loan origination, mortgage servicers, and escrow depositories. We anticipate the mortgage industry to continue to contract but at a slower rate than 2022. The mortgage industry will level off and eventually expand after interest rates come down. There will be a lag as the mortgage industry will not hire until rates lower. The expenditure variance from FY23 to FY 24 is due Maui wildfire response. FY 25 variance is due to projected increase in costs due to inflation

 Appropriation Account Number: T-XX-926-R

Intended Purpose:

To allow consumers harmed by persons that violate Chapter 454F, HRS, to recover damages sustained by the fraud, misrepresentation, or deceit of such persons.

Source of Revenues:

Fees paid by mortgage loan originators upon initial licensure and at annual renewal. (Act 64 2022)

Current Program Activities/Allowable Expenses:

Licenses and regulates mortgage loan originator companies and mortgage loan originators. Mortgage Loan Recovery Fund (MLRF) was established to protect consumers by making it easier to recover losses caused by persons that violate Chapter 454F, HRS. Allowable expenses are the payment of claims as ordered by a court and expenses related to the administration of the Recovery Fund. DFI is concerned about potential scams arising from Maui wildfires.

Variances:

The drop off in revenue beginning in FY 20 results from suspension of collection of fees. A fee of \$25 for new licenses was reinstated beginning 9/1/2024. Expenditures vary based on court approved claims or potential claims projected to be paid. Only applicants for an initial MLO license pay into this fund. The MLRF has sufficient funds to compensate aggrieved consumers. Currently, there are no court actions pending to provide disbursement of the fund.

 Name of Fund: Public Benefits Fee ("PBF")
 Legal Authority: Section 269-121, HRS

Contact Name: Ashley Norman
 Phone Number: 586-2054
 Fund Type (MOF): Funds held outside of state treasury
 Appropriation Account Number n/a

Intended Purpose:

The public benefits fee shall be used to support clean energy technology, demand response technology, and energy use reduction, and demand-side management infrastructure, programs, and services, subject to the review and approval of the public utilities commission. (HRS 269-121)

Source of Revenues:

Moneys collected by Hawaiian Electric Companies (HECO/MECO/HELCO) from its ratepayers through a demand-side management surcharge.

Current Program Activities/Allowable Expenses:

The public benefits fee supports the programming efforts of the PBF administrator Hawaii Energy, and the work of the Energy Efficiency Contract Manager, the Evaluation, Measurement, and Verification Contractor, the PBF Fiscal Agent, the PBF Fiscal Auditor. The programs and services offered by Hawaii Energy are the subject of Docket No. 2007-0323.

Variances:

Variances in revenues each year are largely due to differences in electric utility sales from amounts forecasted by Hawaiian Electric Company, due to changes in customer electricity consumption patterns and the cost of electricity in Hawaii, as the PBF is collected as on a per-kilowatt-hour basis from electric utility customers. The budget for FY25 has been adjusted to align with Hawaiian Electric Company's revised revenue forecasting, and Hawaii Energy's approved 3-year plan (FY23-25) as well as current projections for FY26.
