Approval of the  
December 10, 2025

Minutes:

The Board discussed corrections to the dates shown on the meeting minutes of December 10, 2025.

Upon a motion by Ms. Wada, seconded by Dr. Asay, it was unanimously carried to approve the minutes, as is, of the December 10, 2025, meeting.

New Business:

Dr. Candace Denham, a licensed Hawaii veterinarian, provided testimony. Dr. Denham asked for clarification on telemedicine legislation, specifically regarding the establishment of a veterinarian-client-patient relationships (VCPRs) for prescriptions. The Board acknowledged Dr. Denham's inquiry and indicated it would be discussed further in Executive Session.

A. Appointment of Legislative Liaisons

EO Stinardo described the role of the Legislative Liaisons as primary contacts for the Legislature on behalf of the Board, especially for bills that may require testimony in advance of scheduled Board meetings. Dr. Wood expressed willingness to continue in the role. Dr. Hummel volunteered to be the second liaison.

Upon a motion by Ms. Wada, seconded by Dr. Chock, it was voted on and unanimously carried to designate Dr. Wood and Dr. Hummel as the primary and secondary Legislative Liaisons for the Board.

B. Board discussion on Veterinarian-Client-Patient Relationship (VCPR) requirements for telemedicine

Dr. Denham, a licensed veterinarian in Hawaii, requested clarification on legislative language regarding the establishment of a VCPR for prescription purposes. Specifically, she sought guidance on the provision allowing an on-call veterinarian with access to full medical records to establish the necessary relationship, even when an in-person visit is typically required. To illustrate, Dr. Denham presented a scenario involving a patient on an outer island who had been seen within the past year and had a history of chronic urinary tract infections. She questioned whether having full medical records available for review would suffice to establish a VCPR for immediate antibiotic prescription purposes, or if stricter in-person requirements would still apply.

The Board deferred further discussion on this matter to Executive Session.

Adjudicatory Matters: Request for removal of license restriction – Candice Denham

Dr. Denham formally requested the removal of the condition on her license and gave background on how she received disciplinary action against her license in Nevada, stating that her State and Federal (Drug

Enforcement Administration) DEA licenses are currently compliant with regulations.

Dr. Wada moved to enter Executive Session to discuss items 2.B. and 3.A. and 4, Dr. Hummel Seconded the motion, the Board voted and the motion carried unanimously at 10:40 a.m.

Dr. Wada moved to leave Executive Session, Dr. Hummel seconded the motion, the Board voted and the motion carried unanimously at 11:26 a.m.

After returning from executive session, the board discussed Agenda Item 2B. Informally, the interpretation of the VCPR requirements for telemedicine, based on existing statutes, is that the veterinarian should have knowledge to initiate a general or preliminary diagnosis and be personally acquainted with the care, implying an examination or a relationship with the animal within the past year. The Board further clarified that a positional statement would be drafted by EO Stinando, and approved by Dr. Wood to be posted to the Board's website.

A motion was made by Dr. Wada to accept Dr. Denham's request for removal of license restrictions, seconded by Dr. Wood. Dr. Hummel recused herself from the vote. Due to insufficient quorum, the motion did not carry, and the decision was deferred by the Board to a later meeting date. Despite the deferral, EO Stinando clarified that the existing settlement agreement, requiring Dr. Denham to be supervised by a licensed veterinarian, remains in effect.
