Call to Order:

There being a quorum present, Chairperson Nishek called the meeting to order at 9:00 a.m.

Chairperson Nishek asked for a motion to correct an error on the May 11, 2026 list of Applications Committee recommendations by adding to the "Approve applications; subject to all other requirements including examinations in Parts I and II, except as otherwise noted" list: Willy K Marshall, RME; Lynch Painting; C-33 Painting and Decorating. Mr. Alejado made the motion, seconded by Mr. Lau, and unanimously carried.

Minutes:

It was moved by Mr. Alejado, seconded by Mr. Polischeck, and unanimously carried to approve March 2 2026, April 6, 2026, and May 11, 2026 Applications Committee Minutes; February 20, 2026 Open Session Board Meeting Minutes; and August 22, 2025 and February 20, 2026 Executive Session Meeting Minutes.

Scope of Activity Committee:

Paul Alejado and John Polischeck, Co-Chairpersons

- a. David Ha, University of Hawaii
5992 Hale Ao Renovation, Windward Community College

Mr. Alejado noted that the University is requesting a determination regarding the following:

- i. Are the contractor and subcontractor properly licensed based on their proposed scope separation?

Mr. Alejado asked if there was anyone present that wished to provide testimony. There were none.

The Board noted that the contractor is EBJ Construction Inc, which holds the "B" General building and C-31 Masonry classifications. The subcontractor is Drill Pro Company (trade name for Bruce St Germain) olds the C-35 Pile driving, pile and caisson drilling and foundation and the C-57 Well classifications.

Following a review of the classifications held by both parties in relation to the project's requirements, the Scope of Activity Committee concluded that based on the solely on the information provided, the contractor and subcontractor are properly licensed for this project.

- b. Joseph Alex, Kula Trucking Services LLC

Mr. Alejado stated that Kula Trucking is requesting a determination regarding the following:

- i. Requests a determination on whether a contractor's license is required for services provided on the Hart Rail Project Phase 3.

Mr. Alejado asked if there was anyone present who wished to provide testimony. Joseph Alex introduced himself as the owner of Kula Trucking Services, LLC.

Mr. Alex explained that the services provided primarily involve transferring products from point A to point B (hauling). He noted that the current description for the C-17 Excavating, grading, and trenching classification does not clearly explain if this specific scope of work requires a license.

Vice-Chairperson John Polischek Jr. affirmed that no license is required for hauling or for vacuum truck work, such as sucking out a manhole. He continued by stating that if a provider is hired by a licensed contractor (such as an "A" General Engineering, C-13 Electrical, or C-17 contractor) to provide a truck and perform hauling services, no license is required. However, if a provider is hired directly by a customer or engineer to excavate with their truck, then a C-17 license is required.

The Board determined that a contractor's license is not required for the hauling services as described, provided the company is not hired directly to perform excavation.

It was moved by Mr. Alejado, seconded by Mr. Polischek, and unanimously carried to approve the determinations stated in items (a) and (b) above.

Chapter 91, HRS, Adjudicatory Matters:
